## **SUMMARY KEYWORDS**

people, trump, tomorrow, stand, happen, communist, dc, insurrection, hear, country, dictatorship, recount, mike, talk, support, duty, fight, chief, president, state

00:00

Almost the complete news blackout.

00:04

Oh, yeah. They don't want people to see that another unbelievable. Well, it's not unbelievable. It's just you think you've seen it all. And they show you something else, right? Well, at least maybe the other side's not getting press also, right?

00:26

00:30

I don't see much in either direction, actually. I'm looking at it now as well.

00:39

I'm sure, I'm sure a lot, I'm sure we're gonna see a heck of a lot more tomorrow. So I just hope everything goes cool down there for the people coming in. We'll say could be a tough environment down there. So

00:59

hey, Mike, this is Sean from Georgia.

01:02

Hey Sean.

01:04

That gentleman that was just speaking, he said there was a bunch of Trump supporters, where's he located at?

01:11

He's in DC.

01:13

I'm in DC too, I'm down here close to the White House. I did a walkthrough last couple hours down there. And there the Black Lives Matter Plaza, at cost of heavy Black Lives Matter presence, and a small antifa. But it's just mostly black lives matter down there. It seemed like it's a block party going there for some of their songs back. And, yeah, not a lot of people.

01:47

Were in the high end of town. I'm just kidding. Now, we were at the freedom plaza, a different Plaza. We're down where all the Trump people are. Okay. Unfortunately, unfortunately, these two sides are going to meet tomorrow

02:03

at some point and the this what I heard today, these stock to steel rally I started I think he just said mentioned are meeting in the freedom Plaza surround at noon, and then I think they're going to march down to this court.

02:24

Well, we had discussed this earlier, because some of the and it's not and we were gonna say dlm but it's not BLM. There's a bunch of different groups that are here. I want to say the one is called f magga. They are trying to get here to 1130 before the Trump people get her at noon to cause chaos. But all the people that were down there tonight about 630 when we were walking through, said they were going to start getting there at nine or 930 so that they could own that whole Plaza. Nobody could come in so they've already kind of got their number on that side of things. I

02:58

think we'll be okay there. Yeah, it's time to get on down getting down there as early as I can. That's a good plan.

03:07

Phil, it was a you talking?

03:10

Yes, that was

03:11

okay. Gotcha. Gotcha. That's what I felt good. They'll say. So you did a good good walkthrough of everything. Yeah, we actually walked down and there was a guy on load some signs and stuff. And for the it was like, you know, dump Trump go by and kind of signs and they turned out to be it almost looks like baseball bats with signs on him. So I took a couple pictures of that and send it in

03:39

should make a bonfire.

03:42

So unfortunately, I doubt they're still sitting there. There's a bunch of people around ready to grab them, I think.

03:49

So we are meeting that freedom.

03:55

First, sort of cover that here in a few minutes.

04:00

Just out of curiosity, you guys that have seen the opposition people. How many thousands or hundreds Do you think you've seen so far?

04:13

I personally have seen dozens, if not hundreds. Okay, that's amazing. As curious. Yes. I've only seen dozens.

04:27

They'll be there tomorrow for sure.

04:31

Yeah, so don't always come on time. We're a little bit late. Hey, go sabotage yourself. Big.

04:47

Blue jello. What's your first name again, buddy?

04:51

Jesse.

04:52

Jesse. Okay, gotcha. I'm sorry. I didn't reach out to you yet for another night. I'll get that taken care of this weekend. There's you Another guy out there I'll get you squared away

05:07

guys I don't think we even have any leaders here in Oregon that there are there'll be a mighty quiet and I've heard one single peep from them on a very very very few people answered that there are so kind of puzzle a little bit and we think it's leadership there

05:24

okay Jesse raise your right hand how much but maybe not we'll see there's there's there some there and I've had some other people call in from Oregon on some of the other calls I've done and I'll get all

you guys plugged in together there's there's when I say there's not many there's not many coming in on the call there's more there we just got down on fire get squared away

05:55

at I'm in Clackamas County and that's our chapter what the hell along go. And um, anyway, um, I have quite a few ancestors. But Mike in the Revolutionary War in in French and Indian Wars and we have some that was there at Fort Detroit at the surrender v teen 12 the correct blood directly said Meriwether Lewis and so that's what we call like, follow him by his footsteps and so trying to you know, try to help out Trump as much as I can. Now and I'm not out when I took out the survey protect my community years ago in the off forcement to desert city of Portland. And Zach same just centers been trying to ship from the BLM and the riders. And they're far from being peaceful. And um, anyway, um, have ancestors voted upon every war discussion. Simplot and so therefore, my dad's at 67. So he can't really do much so therefore, at least only me be able to take that step. So here I am.

07:08

I hear your brother up. I'm an Adams. I'm not related to the Presidents but I come from a long line of indentured servants.

07:16

Right? Never know they might be blood related.

07:21

Now, we're, we're from the other part of town.

07:25

Last but Easter, so

07:27

we've been

07:30

good, neither Alessi, you're still fallen by the legacy of that last name, because here you are. So

07:40

I'm sure I don't I don't have any intention of letting these communists and vigils take over this country. So we're gonna do what we got to do. But a weird process we're going through. Hey, Mike. Yes. Ah,

07:59

jack. Hey, I want to ask you. Do you have an update? The only thing I have found out is that I guess we're now looking good as far as winning the states. I think we lost

08:15

Georgia, efficiently last Monday, Rico yet. So here's what happened. They recount this distance from the attorneys. They recount the state the regular way. If it doesn't come out in his favor, then it goes to

their state

08:39

college.

08:40

No, it does not yet. Then it goes to their state court system. If that doesn't work, then it goes to the Supreme Court. So there's multiple levels. He's trying to win every state at the local recount level first, because then that's a valid decision, not a court decision, and it becomes a clear win. Once that can't happen, or it doesn't happen. He moves to the next level. So there's three levels they have to get. Right now. They're

09:06

just starting on Monday, the first week. Does he officially have 234 now I guess he got some today.

09:18

If you've got if you actually take away the states that are under contest right now, Trump actually has the lead by like eight

09:32

okay.

09:34

So the news media man, they're really they're really confused and it doesn't matter if anybody box just just basically bellied over on Trump.

09:48

Oh, yeah, they're done with them. That's just amazing. I was looking at Clifton may actually have

09:53

quarters in where that recount is in Georgia. And they're gonna keep the nose. Republican supporters will Whatever, I'll wait from there again, where they can't even see what the hell's going on. Like, seriously, that's breaking the fucking law and yet again, it goes back to

10:13

the day that Facebook changed his profile to a political candidate versus the president.

10:21

Oh, yeah, that's correct.

10:23

And they actually did that right? Yes. Does anybody has anybody seen the report of US Army raid on server farm in Germany that processes American boats

10:44

the United States Army over there but congressman

10:47

congressman congressman Gohmert put that out about two three hours ago

10:53

yeah the YouTube video I agree with

11:03

Yeah, apparently there's a bunch of states using this system what the what their process and these boats are received or something help them every week well, if anybody's invasion I apologize the YouTube video showing a firefight is highly suspect will probably not gonna fire on a NATO ally. If anybody's interested I posted that video to the forum. If anybody wanted to buy it wants to watch

11:39

Firefly with whom are actually

11:51

claiming that it was the firefights related to the storming and grabbing the servers

12:03

please please clarify. mile tall bullshit yeah is posted it was posted in the forum. So check it out. See what's Think about it. I haven't seen it. So any of you to just come in on the call. We're waiting this few more minutes here on Stuart. He was at Home Depot getting supplies and he said he had been with us here any minute now. Become an insider saying hang tight, we're just talking general chat. And I will say this is a this is an org wide chats posted on the orcs is not necessarily a secure, secure chat. So he will be careful about what he talks about. So just just be consider that in your questions as well. So he's got to be sensitive about that. So I will say this on one of my work calls. I the only person that logged in that night was a was a reporter for a la time. So they apparently signed up and breached our system and got in there. So anyway, just let me know that

13:31

way so so cool. Good news, huh?

13:36

Well, they're you know, they're always added this person was looking for a story which they published the story and Ashley Stewart may have even talked to her so. But anyway, that's

13:50

how Lincoln's giving them never forget.

13:53

And I would say this as well. We've seen some folks in the I've tried to check the the forum there frequently because frankly, what I tried to do and I'm here in Florida and what I try to do that coming in on the call now, what I tried to do frankly is get people off there we do our most of our comms on, on, on signal, but we go in there and check but but sometimes you see people in their tone I was highly, highly inappropriate talk. highly inappropriate talk for what our organization is and what our purposes and anyway say, any of you that go in there, just keep an eye on that. I had a C come in. Just Just to update you. I talked to Stuart he was at Home Depot, grabbing supplies. Probably a good 10 minutes ago you said if the owner 10 minutes, any minute, we expect him on the call. So we're just talking general chitchat. I see you there. I gotta tell you, we're talking and I got my phone on wide open up here. I'm on the 11th floor. And they are screaming USA so loud. I can surprise you're not hearing it on the phone

15:07

is incredible. Just imagine when the rest I won't come in tomorrow.

15:15

Where's that ad? sciency. But communism?

15:18

See, they're screaming.

15:20

Yeah, he's in DC. Yeah, cuz I guess I'm just, I just got hooked up like three minutes ago. So okay, well, that sounds good. I'm glad they're doing that. Yeah, we got a couple people on the call here in DC right now, so but they're in town. Sure, but I want you all to talk about white, non white long, Chief fair. Just from my perspective of like, good, you know, not gonna get down, I'm gonna be staying back here behind the computer trying to keep everything going. I thank you guys for your patience. You know, we, as you may or may not know, we went through a transition there on our membership system. So if you've had trouble getting in, it's only because I've been, you know, I got so many things hit me at the same time. Now, now we had MailChimp shut us down. So working on getting another communication up for the email. So I mean, the left is coming out as hard as they can. So we must be getting closer to the target, as we like to say, you know, and but the reality of it is, is I caught what Mike was coming in. That, you know, we still have to, we still have to show the respect that we have for our country in our Constitution and what we're bringing to the party. It's not, we're not coming down there with fisticuffs, unless we get Unless, you know, and we're all eager to be, you say?

16:54

No, we're all eager to be overzealous, and you know, and but we still have to maintain that that position of

17:04

respect for our flag in our country. What we think, you know, for the happen to us, this too shall pass. We'll get through this I sorry, for the syphon commentary, I just wanted to say,

17:20

a year there downer, DC, you're applying the Washington Monument. And why the statute says surrounding his monument is a Lewis that's one of my ancestors, Eddie, Andrew Lewis, he was a brigadier general under Washington. He's one of the resources that were there, the French and Indian War, so he's taking advanced watch. So let's go ahead and Louis, as from my ancestors.

17:51

Hey, guys, can you hear me? Stuart? Stuart, laid up a bit out just last minute shopping for really guys to get what they need for tomorrow. So my apologies for that.

18:06

A barbecue lightning fluid?

18:10

What's that?

18:12

Is it a lightning foot burner fucking sign sound? Well, guess

18:17

God's few things, we need to be our very best to keep people safe. So we anticipate Black Lives Matter and anti fog, refused fashion etc. to do their very best to try to stop people exercise their free speech and assembly, which they've done all year on what communes do. So I just want you guys to understand, I'm not gonna talk about much about our operational plans for tomorrow. We just won't go into that. But we did understand that we're at a position now where we have to stand up, and we got to encourage president stand up. That's why we're gonna be there. And really, he also what happened in Germany, but there was a seizure by German police and the US military, of the servers for the Dominion software company that does all the building software. So I think it's very good sign. And

19:11

he's older.

19:14

But most likely by President Trump's or he's the commander in chief I trust or I'm

19:18

talking about the opposite side. Pardon? I'm talking about the opposite side. And what that was for those cops boom.

19:32

You mean in Germany?

19:34

Yeah.

19:35

Yeah. We'll see the seizure by the US military. And by German police backing them up. I mean, most likely instance by President Trump. We'll find out why. So yeah, I think I think it's a good sign. I think being able to fix this through conventional politics, I'm on record already of saying president should pull the plug drop the hammer. And what I mean by that would be pulling plug drains swamp. You've got to with his powers, you can do a massive declassification of CIA, FBI, NSA DNI old files of all the dirty secrets that they use control people. And that's exactly what the swamp water is. So there's rain that pulled the plug. And then he's dropped the hammer, which is the insurrection act. And you know, I understand. I'm a libertarian. I'm a constitutionalist. But he has the authority within the constitution to suppress insurrections, we're facing a wide open communist insurrection. In fact, it's a Chinese proxy, attack the military attack by Communist China, but using domestic communist proxies, that's what this is. That's a combined force of domestic and foreign enemies. And the President has a narrow window to To fix this, while he's commander in chief, we're gonna have a fight. And we really can't get out of this bat, one best way to do it is for him to step up asked me under chief and us the authority has always been in his fingertips the entire time, but he knows they're not. I don't know my doubts, but he has this authority. We're doing our very best, I'm doing my very best to make sure he knows it, and urge him to do it. That's what I think all of us veterans across the country. We need to come together and push him to do what he has the authority to do and the duty and don't presume that this is already a plan. I don't think it would be mistake for anybody to say on your trust the plan and he's already got other stuff planned out the news via data, you should have just like when you see the computers of a suspected child molester, you go and seize the evidence you make sure he no longer has access. You don't request from the child molester, the turnover is flipped over years. those files just go season. You know, you'll see those computers same thing needs to be done to all of these agencies that have all this data they use to control people. You should just take SOCOM Special Warfare lawyers and go in and seize those buildings, and then turn it over to SOCOM intelligence, so interest anybody else and have a Special Warfare community take charge that about declassifying and dumping the data, all the dirty secrets, both left and right, conservative Republican throw it all out there. So the American people knows exactly who's right, and who's compromised, who's a, who's a bribe, traitor, who is an open trader to their country and conspiring foreign enemies, Chinese in particular. But it's all out there, expose it all, and then invoke insurrection act and go hand suppress the insurrection. That's what he used to do. And anything less than that, anything that sort of that will not be enough to fix this to to defeat the deep state without us having to fight a bloody, horrific civil wars last insurgency against it. So that's where we're at. And we need to realize that this story of the election is the tip of the iceberg of the corruption has been going on in our political system for decades. It's been terrific. But you can certainly count since the assassination of John F. Kennedy. And it's only gotten worse now there's openly stealing elections. So we got we can't let a fraudulent fake poser Chinese puppet Chinese agent Obama are invited to take office. So President Trump's got to stop it. And he needs to use his authorities commander in chief and we need to support him in doing that but you need to prepared for whatever may come and it's gonna be a rocky month ahead or two months.

23:25

It's gonna be rough and Rocky, you don't know how what's what's going to happen but what should happen above all else the American people need to stand up stand against it. Stand in the streets stand

the capitals every every every Atlas especially warfare veterans, that community to stand up now they can't just wait until you know some future date when they're fighting against a perfect dictatorship. It's a puppet government of Communist China running an insurgency against that they need to stand up now and urged President do is do is do his duty, make it very clear to him that they call him to do this that they will back him and the brothers who are current serving backup the guy get it done. And you're going to be calling all kinds of names by the by the communist does make a difference what you do, it won't matter. We're never going to never going to like you. So get over it. They're never gonna friggin agree with anything you're saying. They're always going to paint you as, as a fascist and, and, you know, Trump's the dictator, etc. all they're doing is projecting because what they will do when they, if they come to power is they'll destroy this country. Once you get a dictatorship that will never go communist dictatorships around the world. None of them ever, ever withered away, and went to a stateless society like the communist claim that they would do eventually, they always impose intentionally imposed dictatorship dictatorship of the proletariat always turns into a lifelong to championship until a dictator dies and passes it on to his brother, like they did in Cuba, or the passes on the sun like was done in northern Korea. It turns into a hereditary dictatorship worse than richer kings. So communism is spectacular. All over the world. But problem is Americans are brainwashed to believe that's somehow a better world and as millions, and that's what the Communist Chinese are now using cannon fodder to destroy the United States from within. So we all know this, but you got to focus on what President Trump can do while he's commander in chief right now, and support him in doing that, and push all of your elected representatives and all the judges, all of the sworn public servants to also support him and call it what it is. It's a it's an insurgency. But it's also attacked by a foreign, foreign enemy, the communist Chinese using American proxies. And that's just reality. So tomorrow, we're going to do our part, our small part, make sure that Americans in the Capitol have a right to free speech and assembly. If you're on the fence about going, you can still make more people there. Because it gets a better idea of support, people are going to show up down here in the driving range. You don't need to be in touch with detail. You can just be one of the people on the rally saying,

26:14

guess what? All right. Guys, I'm gonna sign out because we got a lot of shit to do here,

26:20

get ready to go. But, uh, any questions? I don't want to answer any questions about operational stuff. Tomorrow, we're gonna be on the ground doing do we do, we've got our plan, it's going to be we're still on the fence about you want to come down. still apply, call that burner phone and let us know you're coming. And we'll get to you first thing in the morning, if you have to, we'll find a way. But otherwise, tell you what, just come down to DC and show up. Look for us, you'll see our flag flying, come see us. If you want to help security, we'll do our best bet you on the ground and put you to work or just comes in Tempe. Alright, any questions in general? Is there a little supplies that you need at the foreign operating base that we may be able to help with and tell you what you can do. And appreciate that? I would call that burner phone and talk to you should call it operation. So you talk to Paul, and you'll kill square you? Well, even Doug will scare you away. I'm moving my knee. But here's the thing, we have operational security concerns, we're not going to list out a bunch of shit to someone we don't know. So it's not going to happen. All right. So you'll have to be very, we're going to talk about what you would what you bring down as kind of late now down to a future. This could be an ongoing operation, we should see it

that way. This is day one of the Patriots occupying DC is what it needs to be. So go ahead and contact ball. Even if doesn't happen by tomorrow, that's okay. He can vet you and talk to you about we might need down the road. I mean, you know, the obvious stuff that we always want, you know, I hear helmets, protective equipment, it's always good, because the people that don't respect free speech and assembly, love to get people. You know, urine feces and pepper spray all kinds of crap. Frankly, the Presidents gonna drop the hammer on them one time ago, months ago, you know, when it first started popping off in the summer, as we should drop the hammer. So I've always said this, and I'll say it right now. You should have dropped the hammer then. And I don't want to hear excuses about Yes, he couldn't do that because of this campaign. I see that nowhere it is up. So he has a duty to see the blog faithfully executed. He has a duty to repel invasions and a duty to his presence, our actions and concerns considerations, concerns about voting campaigns or re election campaigns are not coming back. I know they do this before men infallible, but that's not what should be going on. And frankly, hit a one hit one button, even better landslide victory. If you've done that, that's what I say. But anyway, that's all water the bridge. Now point is he's still in the same chair, Commander in Chief, he has responsibility and duty to suppress that insurrection, to repel the invasion by the Communist Chinese and all their allies. And he has a duty to see the laws are faithfully executed, including the laws that give to people protection for their right to freedom of speech and assembly. There are criminal laws against violating those rights. And yet none of that's being enforced to this day. So I think it's time for Trump to stand up and start pushing him some positive pressure on him to get this done. He's going to do so you can't wait. I'm telling you straight up guys. He does not drop the hammer around common students direction, we're going to wind up fighting a bloody civil war in this country to defeat them. Terrific. So more of us are going to die. So he needs to

29:31

find one regardless is going to have

29:33

for sure but it's better for him to fight it was commander in chief. That's my point. We're not going to get out of that fight. That's absurd. That's frickin fat. But do you want to fight start? Well, you have commander in chief that will stand up for the country or you want the fight and you got to pretender to the throne is a communist problem. Now you got to fight against him. And more of the military will side with him because he's in that chair. Which one's better? The answer is obvious. So we got to have a fight with us. Start, what you got to achieve will stand up its present

30:04

bloodshed to be where we're at today, it's going to take bloodshed again. So

30:09

well, we sat on our assets for all these years what this shouldn't happen. So here we are. So we got to fix it. And but President Trump doesn't have to do that. We should be doing it together, friendly calls all up, as we should do, but it's got to get done. So we have the breath call on him and support him doing what's right, necessary. And we all gotta realize this is where we're at.

30:38

All dads that are down in their heads, like while they serve, and they're not just going to sit back and they've done their service, that's not going to work, because everything they do serve for without the surge protectors has been gone. So we got to get him off the chair. Not they're supporting their president and also supporting state legislators do the right thing. So anyway, I'm gonna sign out guys, we've got a lot of things to do about this being late and on this phone call, but hang in a time, they in their

31:07

best of luck plan.

31:09

Stuart, thank you. Guys, Amanda, I want to give a shout out to all the men that have volunteered to come in tomorrow. Beer runs awesome, that we have that kind of commitment. It's great. So but just get ready people, you know, get your communities ready to stand up. So many Americans was asleep when Trump got elected. That was nothing. That was the beginning of the fight. It was only the first battle. And so I think a lot of people realize when that's the case, and now is starting to stand up. So we got to welcome them. It's frustrating as been because they would listen to before now they're gonna listen. So be ready to lead them, getting ready to organize them, and to help them see the way Okay. Okay. Excuse me. Yeah, they're like, yes. And you. Okay? Do you need more money? Can you get can i if i donate more money through your due to our website, can you get access to it to feed everybody. And that can be the fastest way to do that would be a wire transfer takes a few days for us to get to get the donations that get processed. If you want to find one that just just text me. My phone number, text me and I'll give you the if you want to help us like that i can i can give you the wire information to the credit card on the website. But yeah, you can certainly do that. It'd be great. That'd be awesome. I'll give him I'll give him your number. I hit it once. At once Thursday already through the website. Now if you guys got an idea on my hand it went through. But I want to be faster if you need it to feed everybody. Take care of business. Thank you for your donation. We definitely got it. We do appreciate all right. Yeah. That's one thing. I'll be I'll be at the bank tomorrow morning. I'll do it. I'll get information through somebody to Mike probably appreciate. We're gonna do it in a private line. All right. Take care. God bless. Thank you. Thank you very much. Appreciate that. Yeah. Yeah. All right, guys. I'm going to close out with a fair chance. And now we'll do a phone call. Let's do one for Monday night for a little bit of an address. What happened? Okay, I'll schedule on Monday night storage. I will tell you guys that we're announcing caches of wood with bowls in place by bad guy downtown. So

33:44

they're not their Bibles, you know, started before those restaging what they would use in a riot so we can expect the potential threat to happen. But

34:04

okay, sir, thank you. Nice. Nice. Okay, okay, everybody. So so if you're someone is interested, let me say this couple a couple nights ago we were on here. You weren't on the call Stuart mentioned that. He intends to have a presence of presence there to see this thing through so if if you're someone is interesting going or going in the future or you know somebody or as you talk to people there's going to be going on well, unfortunately so at our website, and EDD correct me if I'm wrong, I believe is dc

volunteers@oathkeepers.org. Is that correct? Yes, sir. And then and then and then also copy it to our backup emails. These See volunteers at proton mail.com. Right? So, so if you if you run into somebody that's interested as this goes on, and you run into people my understanding is you don't necessarily have to be an earthkeeper we had to vet them. So when they come in through DC volunteers through that, through that email, we bet them and then we send them on to Washington. So you know, just getting the word out as this drags on and heats up and more and more goes on there's gonna be a need for more and more response. So just to let you know that so as a anything anyone like that tonight

35:51

Heavenly Father, thank You for Your mercy and grace. Lord Asad. Your Holy Spirit be upon us as we enter into your presence. And, Lord, let the words that we pray now be your words to glorify and honor you. Lord, Your Word says to enter into your presence with thanksgiving and praise and Father, we thank you for blessing. With the freedom we are looking to address that problem. Father, we asked your health, Father you

37:08

movies going in and out?

37:10

Yep. Father, we thank you for blessing us with the freedom and the strength to stand for our nation. And keep our O's for blessing us with brothers and sisters who love this country CQ your purposes, and have come together as one, United for your purpose to bring praise and glory to Your holy name. Lord, thank you for raising up great multitudes across our land who seek you for justice, liberty, and truth. Thank you for raising leaders throughout the land like Gideon and Deborah from all walks of life from the White House to the blue collar workers and strengthening them for this time. Lord, we pray your spirit be upon our efforts that we use wisdom, discernment, sound, judgment and strength that you have blessed us with as we stand in the gap.

37:54

Lord, we pray for the restoration of our nation to you and for the healing of our nation. And we thank You for Your mercy and grace in Jesus name.

39:10

Thanks. Thanks.

39:13

had before you leave, are you there? No, sir. Okay, if I do it on the website holla how many days will it take for you to get it? It takes a couple of days to get through the bank. So what

39:29

would you get it by Monday?

39:31

Probably Tuesday, but if you do you have you have access to Venmo

39:37

PayPal.

39:39

PayPal Venmo is PayPal on the phone that goes on quicker if you have PayPal if you have a Venmo account it's a free account you can just do a friend of friend to what we get it's a gym dance and that'd be quicker than Amina wires fax but I don't know if the bank still wires on stymies

40:00

My bank I have to make an appointment. I forgot they sent me an email stating that you have to make an appointment to come in the lobby.

40:07

Yeah, exactly. And I won't be able to get there tomorrow because I'm gonna have an appointment because it's Saturday and I know they're booked and they're only open for three hours because God forbid the women work something all fat asses. Anyways. Is there a head? Hold on Mike. Go ahead. Hey, jack, jack, I'll give you x number. And, jack. Well, we know jack is jack. I'll give you his number and maybe you can get him on that other thing to do it or something like that. Again, Donaldson, same difference that I've got right there. He needs to go to gym though. Okay, okay. Well, why don't I can? That's right. Exactly. I'll, I'll send a message to Jim. And and then he can reach out if he needs to help with it. For what for jack or for Jim? For? Well, if jack. JACK needs any Well, he jack jack, you probably won't have any problems with that, right? No, I just want to get the Pay Pal or get somewhere. I know, the first thing that I gave wasn't enough. And I'm going to fire more money out.

41:19

Right? Hey, Paul, we don't use because they they're just they're just too Even if

41:26

I sent it as a gift.

41:28

No, no, only because we don't have a PayPal account anymore. Okay, so good. But we do have we do have the ability to take that Venmo if you just you just download it on your phone, you're sending cash from your bank. So it's the same difference if you just catch your bank doing and it's simple enough to do. Okay, my wife's a school teacher show and I'm a dumbass. So who do I make attention to? How to help?

41:56

Okay, I've got my number. Let me give you my number. All right. You got? Yeah. Who's 0157569 to three?

42:10

Okay, my wife will call you. Okay? Because you don't understand what you're talking to. I was Hooked on Phonics at 40. I'm 56. And I'm still Hooked on Phonics. Okay, I'll

42:23
