12. You guys should listen, it mirrors this situation directly

14. Yeah that's a good summary.

17. Just fyi for anyone curious, Morris left only temporarily due to personal circumstances. It wasn't anything to do with anyone here or any discussions we were having. He should be back eventually.

23. Finally out of the meat grinder at work. Looks like I missed a whole shitstorm. Sayoc and now Bowers. It's been one hell of a week.
24. 
25. How did book club go? We'e you able to have more than 4 people on a call?
26. Norman Spear
27. Book club was good. We had 3 people, almost 4 but void couldn't get his mic to work.

103. Arcturus

104. only real "critique" if you want to even call it that is I thought he seems mentally unwell with talking about how he nearly shot up his school when he was 15 or so, but that's more a character judgement than anything to do with his writing

105.

106. verdomme

107. If you hear about what he was going through with the school, you would understand that there is nothing to do with mental instability for him wanting to shoot the place up

110. Like there is anything wrong with wanting that

111.

112. Arcturus

113. from what I remember him saying it was primarily a rebellious streak that they'd punish, it sounded like really petty shit

138. I don't think not being able to drop out is a valid reason to shoot up a school

140. Drop out of a school which he at the time was aware of it's indoctrinating ways

141.

142. Arcturus

144.

145. That's just my personal judgement of the man though

146. verdomme

147. He didn't want to shoot it up because it was like that, it was because they wouldn't let him leave, they destroyed his plans that he had for himself, and they blackmailed him essentially

160.

161. d00mr

162. Good morning and happy Sunday

163.

164. Norman Spear

165. Hi

166.

167. d00mr

168. How's everyone doing

169.

170. Norman Spear

171. Good. Watching this Little stream

172. <https://youtu.be/TagQpw-1j5Q>

173.

174. How are you?

175. Watching and disagreeing with pretty much everything he says.

176. He wants a "peaceful revolution". He thinks jews in America can be peacefully rounded up and removed.

177. juppi

178. like they would like that

179.

180. Didn't work in the past

181. d00mr

182. I'm doing well, thanks. Pretty disappointed by this stream, but then again Little probably has to save face. He has his place

183.

184. Norman Spear

185. Yeah he should know his place and not countersignal so hard.

186.

187. d00mr

188. Agreed

189.

190. Norman Spear

191. He should stay on point and use the event to further citizen jews not our side.

This is a big area of weakness on our side—Inability to spin events to our favor when shit happens.

192.

193. d00mr

194. Everyone shit themselves and yells about muh optics, preparing to be apologetic and dismissive.

195.

196. Norman Spear

197. Yeah exactly

198.

199. Lots of finger pointing and second guessing etc

200. It looks weak and it's entirely counterproductive.

201. d00mr

202. Which it is

203.

204. I saw all of that and some trs-related chats that I'm still in. I just about had an aneurysm.

205. I think I'm done with this little stream

206. Norman Spear

207. If he really want to expel jews peacefully, he'll need to ally with PoCs in USA since they are the majority soon.

208.

209. Assuming hypothetically it was even possible to do it peacefully.

210. You can't use Marxism against the jews & you can't use capitalism against them either. All you can use is nationalism but if it's civic nationalism you end up right where you started. So I'm not sure what Little has in mind to effect this "peaceful revolution".

211. d00mr

212. Maybe he thinks that there's a real chance he'll be elected

213.

214. Norman Spear

215. Yeah it makes more sense if he's primarily looking at it from a personal standpoint

216.

217. But as an objective strategy it makes no sense.

218. There would need to be a total reversal of current demographic trends which obviously isn't going to happen for the same reasons he's fighting against in the first place.

219. He essentially wants a purely political solution and like any of the other, it quantifiably impossible.

220. d00mr

221. Agreed

222.

223. Norman Spear

224. Now if he wants to redpill on the JQ, that's fine. He just shouldn't countersignal with that ridiculous peaceful revolution BS.

225.

226. Like you said, I think his work is good to help radicalize. But when it starts taking effect, he shouldn't try to pull back. Once the genie is out of the bottle, let it do its thing.

227. Antifa is going to target him regardless if Pittsburg occurred or not. The more prominent he becomes the more under threat he'll be regardless if there are any lone wolf attacks or not.

228. Countersignalling isn't going to save him.

229.

230. d00mr

231. [09:43](#) True

232.

233. Norman Spear

234. Don't get me wrong, i think he has serious balls and I respect him for that.

235.

236. But there's only one logical favorable conclusion to all this and it can't be completely peaceful unfortunately.

237. Real revolutions never are.

238. d00mr

239. Hopefully one day he can break out of his fantasy of peaceful revolution

240.

241. Norman Spear

242. He'll have to face reality or throw in the towel. Kind of like a victim of his own success.

243.

244. d00mr

245. I'm trying to get him to J Walk some universities in my area, so maybe I'll have the privilege to siege pill him lol

246.

247. Norman Spear

248. By definition, the real revolutionaries among us need to maintain a low profile.  
That's why to a certain degree we need guys like him. We just don't need him to disavow us ideally.

249.

250. He needs to realize that he needs us too.

251. d00mr

252. "don't punch right" so to speak

253.

254. Norman Spear

255. Yes

256.

257. Arcturus

258. In a way I don't take disavowals like that by public figures too seriously

259.

260. They kind of have to say that imo

261. Norman Spear

262. You don't but it risks having a moderating effect on his followers which are many relatively speaking

263.

264. He can't have it both ways.

265. Arcturus

266. perhaps

267.

268. I doubt many of his followers care that some heebs got plugged

269. Norman Spear

270. That's probably true

271.

272. But he's adding his voice to the disavowal chorus.

273. Arcturus

274. and hell, you have even moderate (by our standards) WNs "joking" about political violence, have for years

275.

276.

Norman Spear

277.

It's a technical issue in mostly as far as propaganda is concerned

278.

279.

I'm questioning him morally just technically.

280.

I know his heart is in the right place.

281.

\*I'm not questioning

282.

d00mr

283.

Realization:

284.

This is more than just a normal disavowal. Little mentioned in this stream that

Spray and ray Bowers had regabbed many of his posts. What little trying to get across with this, is that his intention isn't to radicalize people. It's a little more than saving face

285.

286.

By claiming his end goal isn't to radicalize, i.e. educate people, then he's just an entertainer.

287.

Arcturus

288.

most of these public figures are

289.

290.

that's why I don't pay attention to them

291.

Norman Spear

292.

Yeah that what I'm trying to get at. Either he's in it for himself or he's just not being honest with himself.

293.

294.

Maybe a bit of both plus naivete mixed in too

295.

Arcturus

296.

could be both

297.

298.

I think most truly are in it for themselves, but I don't so much mind that

299.

for many, they're their first introduction to WN, and later NS

300.

they're a very basic stepping stone

301. but anyone who actually knows what they believe has little to learn from them,  
aside from what not to do

302. Norman Spear

303. I agree that His motivations doesn't matter as much as its effect does.

304.

305. Arcturus

306. in their own way, they are sacrificing

307.

308. d00mr

309. Don't wanna derail but the death list has been published

319. sadly many stay on that first step for too long

320.

321. bunch of old people

322. d00mr

323. It's the thought that counts, not the gift I guess

324.

325. Norman Spear

326. Haha

327.

328. charnaz1488

329. Pittsburgh wasn't a gift that man is a freak and needed to be put down or hes a  
tool used by zog to take rights away and free speech or firearms are next the more crazy  
assholes or zog brainwashed sucmbags do this the more likely hate speech laws and

more gun laws will be added. This was dumb and puts our movement back several large steps

330.

331. Norman Spear

332. The System will crack down on us eventually if we succeed in threatening its hegemony regardless if it's done violently or not. It's only a matter of time.

333.

334. charnaz1488

335. Doing it violently and killing old people will make them do it faster and harsher and push people away from the us. If you need to do it violently pick better targets not old folks that will die soon anyway

336.

337. Hit something that matters if thats what you're gonna do this was just a waste

338. Brandon Hitt

339. Infrastructure is what needs targeting.

340.

341. Brandon Hitt

342. Infrastructure weakens the system. Small hits like yesterday's, while striking fear into many, only ultimately serves to embolden the enemy while they're still strong. If the goal is to provoke the system into making a move, I'd much prefer a weakened system to come down on us.

343.

344. Arcturus

345. Yeah, I agree. It was strategically useless.

346.

347. Accelerationism IMO has its time and place, but hastening hate speech laws and antigun regulations is not a good play

348. Brandon Hitt

349. I don't think it was completely useless. I think there's a lot we can learn from it. Of course, emboldening the system will simultaneously embolden our people. Perhaps it will inspire them to action.

350.

351. Arcturus

352. Every action must have an objective. I can't see any objective being served other than his bloodlust being sated

353.

354. fear, sure, but like you said, provoking a beast while it's powerful is foolish, better to do so while it's already limping

355. Norman Spear

356. In a sense there's 2 types of acceleration - strategic & tactical. Because we are weak in numbers, we need to aim for greatest strategic effect possible each and every time..

357. And do so without getting caught because that takes away from the strategic effect significantly.

358.

359. Arcturus

360. Yeah. Is eleven elderly heebs likely on deaths doorstep worth one of our guys?

361.

362. In the grand scheme of things those eleven gone will not change much, but one less of us certainly will.

363. Norman Spear

364. That's said, acceleration is acceleration in either case and I'm less concerned with the System reaction if it ultimately contributes to acceleration itself, which it's safe to assume it will. So look at the silver lining.

365.

366. Norman Spear

367. In any war things never go exactly as planned or ideally by the book. Much of winning is being able to properly react, capitalize, & adapt to events as they unfold.

368.

369.

370. Brandon Hitt changed their profile picture.

371.

372. landser14

373. how is everybody doing?

374.

375. Norman Spear

376. Good. How are you today?

377.

378. landser14

379. A tad melancholic, otherwise normal. Very tired of mundane suburb life.

380.

381. Norman Spear

382. Yeah i understand. It can be tiresome for sure.

383.

384. Do you have a notable Antifa presence in your AO?

385. landser14

386. Not notable. We have one who lives nearby with a giant 'HATE HAS NO PLACE HERE' sign in several languages on their lawn. That's about it.

387.

388. Norman Spear

389. Ok. I was going to suggest collecting intel to help break up the monotony. Antifa is always a good start in that regard but needn't be limited to them of course.

390.

391. landser14

392. I am currently trying to find out how legal it is to set up camp innawoods for a month or so.

393.

394. Want to go off the grid for awhile and collect myself, just have a hard time getting the resources to do so. Been collecting food and whatnot for it.

395. Norman Spear

396. What are the potential legal issues—Using public land in that manner?

397.

398. landser14

399. Yes, I'm not 100% on how dropping a tent works. I've only ever been to the 'camping' grounds where boomers pitch tents next to trailers.

400.

401. Norman Spear

402. Do you have a timeframe in mind that you're aiming for to begin living off grid?

403.

404. landser14

405. ASAP, I want to do it for a month just to get used to it before working on full time off the grid.

406.

407. Norman Spear

408. Are you concurrently looking to buy your own land for that longterm purpose?

409.

410. landser14

411. Of course

412.

413. Norman Spear

414. What kind of home are you planning on having on your land (cabin, trailer, etc)? I'm curious because I've been considering various options myself for the same general purpose.

415.

416. landser14

417. I was originally planning on building a cabin, but seeing as I am one person who has led a solitary life with no change in sight, I don't think I'm up for that task alone without a place to stay in the mean time. With that being said, I'm looking for a good amount of land, and a trailer to plant there. Its an instant home, and leaves a lot of room for permaculture, animals, etc

418.

419. It doesn't leave a very large footprint either, and is mobile if need be

420. Norman Spear

421. Makes sense.

422.

423. void33

424. We should try to live in small enclaves in the woods

425.

426. Living alone gets you killed

427. Norman Spear

428. Ideally yes

429.

430. landser14: What's a reasonable size plot of land you can expect to buy considering the prices in your area?

431. landser14

432. The plan from the start was to open up my land for any local NS who want to come and stay, but after observing how this has been going, people will stick to comfort

433.

434. 20 acres is what I was looking at, around 50 grand, I can get 100k from selling my current house

435. Norman Spear

436. That's my plan as well —open my land up to fellow comrades.

437.

438. landser14

439. It would be nice to come together with local comrades to do it as a group effort, but that is clearly not going to happen. You will shoulder the burden of cost, and the few who actually care to leave the computer screens will benefit

440.

441. But its what has to be done, it seems.

442. Norman Spear

443. Yes it seems so.

444.

445. My ideal is exchanging land for labor in the sense that comrades can give back by helping to develop the infrastructure.

446. I suppose some form of rent payments could supplement that to help cover costs. Not for profit making though so the rent would be relatively low comparably speaking.

447. In my case I won't live on the land fulltime so I'd need to rely on the labor of other pretty significantly if there was serious interest. So that's why i say labor exchange rather than rent would be the fairest in my situation i think.

448. landser14

449. Do you have a contingency if the labor exchange doesn't pull enough weight?

450.

451. Shadow

452. Hey guys.

453.

454. Norman Spear

455. landser14: i imagine that it would be in whoever's self-interest to develop it so no.

456.

457. Shadow: hi

458. [16:30](#) I think alot of the practical details would need to be worked out and agreed upon based on the individual expectations of whoever you'd allow in. I suppose that's why I haven't thought through all the potential scenarios in alot of detail yet.

459.

460. landser14

461. [16:34](#) I think a good portion of people have a hard time getting out of that 'whats in it for me' mindset, so moving into a relatively run down area with little development or comfort and having to pay rent is probably a no for many

462.

463. void33

464. The weak and worthless have no use

465.

466. If you cannot suffer and die for national socialism you do not deserve to live

467. Norman Spear

468. landser14 Yes that's true. I'm saying all this based on the assumption that you'll eventually find a worthy person or two.

469.

470. void33: I wish everyone had that attitude

471. landser14: Do you expect the land to be close enough to your current place of employment so that you won't need to find a new job?

472. landser14

473. No, it is about 4 hours away from where I currently am.

474.

475. void33

476. Modern society breeds a expectation that life is supposed to be full of comfort and fun

477.

478. Norman Spear

479. Yes it does. That's why we need to form an elite vanguard

480.

481. void33

482. Its why people are so soulless and vapid these days, they have nothing to live for except the next form of pleasure

483.

484. And most so called natsocs and white nats do nothing but post "epic based memes" online

485. Because it's fun and requires no work

486. Even in the base I am sure there are people who joined with no expectation of actually doing anything

487. Just another "cool based chat room"

488. Norman Spear

489. It's a monumental task even just on a personal level to break System-induced dependency and/or complacency.

490.

491. void33

492. People talk allot of shit

493.

494. Norman Spear

495. I hope if a guy is in here he's at least trying even if it's small but concrete steps.

496.

497. landser14: my intention in this discussion was not to make a pitch for the PNW but I'm going to make a pitch for the PNW. If you need to change jobs wouldn't that open up the possibility of moving to another region or are your employment options such that that's not feasible?

498. landser14

499. My primary concern with moving to the PNW is that I know little about the area, I don't know many people there, and I've never been further west than florida.

500.

501. At the very least, I had spent time in the area I was searching for real estate in, and know folks up there

502. Norman Spear

503. Ok. That's understandable.

504.

505. landser14

506. I'm not totally against it, just unsure. Another goal of mine is to avoid 'mundane' employment as much as possible. One of the mental traps for me is that of a day to day job, nothing makes me crazier but I understand it is sometimes necessary

507.

508. Norman Spear

509. Yeah it's a big decision not to be taken lightly especially if you have a higher chance of achieving your employment goal in your current region.

510.

511. Arcturus

512. landser14: often times people make "scouting trips" where they check out the area they're interested in, there will no doubt be quite a few of us there

513.

514. landser14

515. Its something to consider for sure

516.

517. Arcturus

518. And in a few years time, there's going to be a receiving party there for anyone here

519.

520. Once I move, I'd be willing to do that

521. Wouldn't be surprised if a few others would be willing to too, we've got a few PNW guys here

522. or even coordinating a group scouting trip could be an idea. I'm hoping to do one in the summer

523. void33

524. I'm moving to pnw

525.

526. In the next 2-3 years

527. Arcturus

528. I'm hoping under 2

529.

530. landser14

531. I am open to getting together with comrades anywhere, it just takes resources to get from the atlantic to the pacific

532.

533. Arcturus

534. No doubt

535.

536. d00mr

537. Do you guys consider the Alaskan panhandle to be apart of the NW front?

538.

539. Arcturus

540. eh, not really

541.

542. Dwarf

543. Alaskan ethnostate shall be independent from (((NWF)))

544.

545. void33

546. Alaska would be one of the worst places during the collapse

547.

548. Imao

549. Arcturus

550. it's not connected by land so it's really unfeasible to get to especially if you're talking possible blockade

551.

552. be careful accusing others of being kikes

553. Dwarf  
554. Mainland Alaska would be okay. As long as you've already got infrastructure.

555.  
556. Nah I'm not accusing NWF of being ZOG'd just a joke.

557. Arcturus

558. Alaska basically depends on the outside world

559.  
560. hard to tell sometimes, some people get autistic with that shit

561. Dwarf

562. Watch video of an Alaskan survivalist.

563.  
564. Has network of base camps around Alaska, knows his area, etc.

565. Arcturus

566. Can it be done? Yes. Can many do it? For how long? Can you actually grow out of that?

567.  
568. better places to be IMO

569. Dwarf

570. It's also a great place if you're looking for freedom from today's society.

571.  
572. Large chunk of Alaska has very little taxes, including no set property tax.

573. Arcturus

574. Sure, but post SHTF you're basically fucked and stuck there

575.  
576. you can't grow a society out of that without a lot of outside help

577. if all you're concerned with is running away and being a hermit I guess it's okay

578. but it's not a plan for future success imo

579. Dwarf

580. A commune/compound there would be pretty secure. And atm while I'm all down for securing our people I do have the yearning to just go out with some fellas and their gals and go live off in the wilderness.

581.  
582. Arcturus

583. Which is more important, living out fantasies of escapism or changing things in the world?

584.

585. I understand the desire for that, but gotta have other things as priorities imo

586. Dwarf

587. It's less a fantasy and more a doable thing. Though I won't be escaping any time soon due to necessity of my future plans.

588.

589. Arcturus

590. I'm not saying it's unfeasible, more that it's like a dream to pursue

591.

592. but running off innawoods allows our enemies to go unchallenged as they destroy the white race

593. Dwarf

594. Yeah, ik.

595.

596. d00mr

597. These are some good points about Alaska, but fuck it's still my dream to maybe one day settle down there.

598.

599. Dwarf

600. It really is.

601.

602. Arcturus

603. I bet you could scratch that itch in the PNW

604.

605. But yeah, before I was really racial I thought about alaska too

606. d00mr

607. I think mainland would be worse, because at least in the panhandle you get PNW climate, fresh water and access to the pacific.

608.

609. With PNW climate you could probably still grow all the crops you'd want

610. Arcturus

611. Join PNW gang

612.

613. d00mr

614. The areas I'm looking into settling down in are Alaskan PH and Michigan UP.

615.

616. Arcturus

617. literally who of our ideas is in michigan

618.

619. to be alone is to die, eventually

620. d00mr

621. I have a ton of buds in Michigan

622.

623. Downside with the UP is that there isn't shit up there, in terms of employment.

624. doomsayeth

625. God, so much convo to catch up on.

628. So Bolsonaro is now Brazil's president

636. void33

637. He is gonna start a genocide of faggots hopefully

638.

639. Arcturus

640. I bet the rainforests would go either way tbh

641.

642. Demoralizing leftie faggots is always good though

643. void33

644. I don't like him but he might cause a civil war

931. people don't really lurk, they just don't say anything here

932. cadiantrooper

933. A purge or at least a crack of the whip would be a good idea. We have a lot of lurkers.

953. Norman Spear

955.

956. As Arcturus said to an extent they don't matter because we're going to take particular security measures for any IRL stuff and it will be compartmentalized.

957. In the near future some may get booted. It's a case by case basis that I'm currently evaluating.

958. void33

991.

992. I find myself in agreement with much of his strategy more and more over time.

993. void33

994. He hates Mason now sadly, because of the republican and CI shit

995.

996. Norman Spear

997. Well for us we need to take whatever's valuable from each and make our own way ideally.

998.

999. These personalities are inevitably going to clash it seems.

1000. void33

1005.

1006. void33

1017.       Been reading this

1018.       Norman Spear

1019.       Right. We must eventually have the skills necessary to back up whatever strategy we formulate

1020.

1021.       void33

1022.       It talks about how to survive in a guerrilla war situation

1023.

1024.       How to paint camo and hide in the bush etc

1025.       Got it from my grandpa who was in Vietnam

1026.       Norman Spear

1027.       Good. E&E is an important topic. I've been trying to find one or two authoritative sources but so far there doesn't seem to be one written specifically for our side.

1028.

1029.       But there's alot that can be pieced together from what has been published n

1030.       void33

1031.       Maybe you could write "the base" pdfs or something

1032.

1033.       Just a idea

1034.       Short guides for practical action

1035.       Norman Spear

1036.       Yeah I've been thinking about one big manual but short guides is probably a better idea and more practical for me to tackle. Thanks for the suggestion. I'll give it some thought.

1037.

1038.       void33

1039.       I like to go to military surplus stores and buy old manuals and stuff

1040.

1041.       They have some good stuff in them

1042.       cadiantrooper

1043. void33: Could you send us some of the most useful highlights from the text?  
One way to maximize information exchange would be if we all tackled a different manual and forwarded the interesting bits to Imperium.

1044.

1045. A lot of these manuals are written for our enemies. The trick is to take what they teach and think of them in the reverse. "This is what has worked against them. This is what they intend to implement to counter it. How do we prevent that?"

1046. void33

1047. cadiantrooper: Will post tomorrow

1048.

1049. <https://www.youtube.com/watch?v=cF8mmNDvO2A>

1050. Norman Spear

1051. void33: good take in that vid. I'll just add that the truth is majority of people including Whites are followers who are easily influenced. It's just part of human nature & in order to have a functioning society requires more followers than leaders naturally. The problem arises when the leaders are shit as we have now.

1052.

1053. void33

1054. If a white person is just paying taxes and going about a normal life they have nothing to fear, they are just a lemming existing in the system

1055.

1056. But degenerate whites get the rope

1057. Norman Spear

1058. Yes I'm not making excuses for bad behavior. Anyone who chooses to get in our way is automatically an enemy regardless of race or even if they aren't engaged in degenerate behavior.

1059.

1060. They have a choice—collaborate, evacuate, or passively obey. Anything else makes someone our enemy by default.

1061. void33

1062. I agree 100%

1063.

1064. It will be similar to the peasants during the bolshevik revolt

1065. Norman Spear

1066. Yes. Ideology has little to do with it because as I said it's more a product of human nature. That said I like to think we'd attract the right kind of Whites to our side eventually even if it's only after we win.

1067.

1068. We are the vanguard and others will either follow in our wake or get swept away by it.

1069. void33

1070. It's like how the Vietnamese villagers would shout pro vietcong messages when the VC came through, but when the USA went through the village they would wave American flag and shout "GO USA" I think that's how it is gonna be in most american towns.

1071.

1072. Norman Spear

1073. \*our wake

1074.

1075. Yeah something similar

1076. void33

1077. Most people don't care as long as they are getting fed and not shot in the streets

1078.

1079. Norman Spear

1080. Yes and I think once in control after a sufficient amount of time we can reprogram most of those who choose to stay under our jurisdiction.

1081.

1082. Or might the a couple of generations but it can be done

1083. \*might take

1084. \*it might take

1085. void33

1086. Allot of whites will gtfo in the first few months and anybody who would be harmed under the new order

1087.

1088. But the majority will not

1089. Norman Spear

1090. Yes the first instinct will be to run once they realize the government can't protect them.

1091.

1092. void33

1093. I expect some cities will be taken over by commies in a prolonged war situation

1094.

1095. Norman Spear

1096. Definitely

1097.

1098. void33

1099. Other more conservative cities will be federalist strongholds

1100.

1101. Norman Spear

1102. We'll need to lay siege to the cities

1103.

1104. void33

1105. Anything close to a military base

1327. doomsayeth

1328. I have to disagree. That's an oversimplification.

1329.

1390.       Yes, food, shelter, repairing equipment, etc.

1392.       FF\_Mathias

1393.       If you've got mediocrity at the front, you lose

1394.

1395.       doomsayeth

1396.       You want dedicated warriors, of course. But you need people, lots of people who are sympathetic to your cause.

1397.

1398.       FF\_Mathias

1399.       Yeah

1400.

1401. Those people, historically speaking, were you family members

1410. juppi

1413. doomsayeth

1414. How many people in this group have large extended families who would support them in the cause, I wonder?

1415.

1416. FF\_Mathias

1417. That means we need wives

1418.

1419. and children

1420. juppi: Yeah, I realize that

1421. juppi

1422. Like honor. Most would prefer to beg on their knees rather than fight to the end

1423.

1424. Norman Spear

1425. Much of the support is also organic... It can't be manufactured or forced

1426.

1427. doomsayeth

1428. Yes. We do.

1429.

1430. FF\_Mathias

1431.

doomsayeth: I've got a bit of support from my family

1432.

1433. But yeah, I don't know about others

1434. I'm just saying

1435. You, me, as men; we create families

1436. Sons will follow you into battle if it comes to that

1437. Other men are less reliable

1438. Everything comes down to tribe and family

1439. doomsayeth

1440. [12:08](#) I have 2 brothers, strong guys, combat veterans. We are extremely close. But I know for a fact that I would turn me in to protect his family, if it came to that.

1441.

1442.

1443. doomsayeth

1444. Obviously tactics can be tweaked, which give this format an immense advantage as far as adaptability is concerned. At least imo.

1445.

1446. Norman Spear

1447. Yes true

1448.

1449. Arcturus

1450. In regards to the Molyneux talk before, the guy is literally a jew

1451.

1452. He knows about the JQ but he intentionally does not talk about it

1453. He's still useful as a gateway though imo. He's how I got started on this path, to some degree

1454. Arcturus

1455. Also regardless of what is personally wanted, we are going to have to have top of the line technology if at all possible when we do achieve our own country

1456.

1457. We can be selective about it, ie no porn, restrict social media whatever  
1458. But we will need to have every advantage we can because the world will literally be trying to destroy us

1459. Norman Spear

1460. Bio and Chem weapons will be essential to any new nationstate

1461.

1462. Arcturus

1463. Also, we will not have cities until we have our own territory - even then we would have to slowly weed out those opposed to us

1464.

1465. doomsayeth

1466. He did a special on the "True history of Israel and Palestine" it was actually pretty good. But he tries to make it seem like jews are divided, that most of them just want to live their lives and be left alone, and that only a tiny minority are actively involved with subversion and manipulation. We all know it is the exact opposite, and so does he.

1467.

1468. Arcturus

1469. Cities will be the last bastion of the Jew, wherever they may be

1470.

1471. doomsayeth

1472. Burn the cities. We reconnect with the land, or we die.

1473.

1474. Arcturus

1475. Don't think we'd need to burn them tbh

1476.

1477. FF\_Mathias

1478. Yeah

1479.

1480. doomsayeth

1481. Our ancestors hated the cities for a good reason, and the rise of the city bugman, was the beginning of the fall of our people.

1482.

1483. FF\_Mathias

1484. Nuking would be better

1485.

1486. Arcturus

1487. They would die on their own pretty quickly if things even degrade slightly

1488.

1489. doomsayeth

1490. Many would, but like you said, some will persevere on the backs of the rural people.

1491.

1492. Think the capital in hunger games.

1493. Arcturus

1494. Those who do would escape the city and become better people as necessary  
imo

1495.

1496. doomsayeth

1497. I believe that no matter what happens going forward, there WILL be a "capital"  
entity.

1498.

1499. Whether its the Federal government reconstituted, or some globalist overlord,  
it doesn't really matter.

1500. Arcturus

1501. Never saw or read the hunger games, is it like new world order bullshit?

1502.

1503. doomsayeth

1504. Not really

1505.

1506. Just dystopian sci-fi

1507. Arcturus

1508. In regards to the capitol I mean

1509.

1510. doomsayeth

1511. Basically the North American continent is broken up into 13 districts, "the capital" is wealthy and has high tech, and it uses the rest of the districts like slaves. It basically extracts all their manpower, resources, and wealth to keep itself going.

1512.

1513. Arcturus

1514. Techno-plantation

1515.

1516. fuggin based

1517. doomsayeth

1518. And makes their kids kill each other for entertainment in "the hunger games" as punishment for losing their last revolt against The capital.

1519.

1520. Yeah, it's pretty based. Where the tribe wants us to end up within the next hundred years.

1521. Except with them in the Capital, lol.

1522. Norman Spear

1523. doomsayeth: yes they will try to fortify themselves in the cities which will serve as "green zones" like we had in Baghdad. Even in Afghanistan our large bases were like mini self-contained cities walled off and surrounded by hostile territory.

1524.

1525. \*large bases

1526. That was the reality throughout both of those countries—We never had total freedom of movement, usually far from it.

1527. We were essentially holed up in bases and fortified portions of certain cities.

1528. doomsayeth

1529. Supply lines are easy to choke off.

1530.

1531. Very few cities in the U.S. would be sustainable under that model.

1532. doomsayeth

1533. Tbh im surprised that the Iraqis weren't able to completely destroy our supply lines. Just goes to show how generally incompetent they were. I was in several convoy ambushes that ended up being laughable, if someone who had even a basic grasp of tactics planned them, it would have been a different matter.

1534.

1535. Norman Spear

1536. Yes it would be a like living under siege. Life would be quite difficult to say the least

1537.

1538. We spent an inordinate amount of resources keeping the main supply routes secure. The conditions we lived in were also austere compared to normal civilian life. The cities would degrade to that level where life would continue but more austere conditions. Also I imagine general law & order issues as a result of the societal pressure would make it even worse inside.

1539. doomsayeth

1540. So ideal, for our purposes anyway.

1541.

1542. I doubt even 10% of the population now could live with the austerity that most of us did overseas.

1595. Norman Spear

1596. Whatever DOJ asks for I'm sure

1597.

1598. All the platforms & service providers do the same when requested

1599. d00mr

1600. Then I wonder what they asked for. Information about all users or just specific ones.

1601.

1602. Norman Spear

1603. They are going to typically be trying to build a case for trial so the requests would be along those lines.

1604.

1605. I imagine their interest is in gathering evidence against Bowers and investigate if he acted alone or not.

1606. That said, would Gab give them access to the entire database? i imagine they would if pressured enough.

1607. doomsayeth

1608. I wonder if they have the resources to map out all of his interactions, from my understanding that's how they were able to gather enough information to prosecute RAM

1609.

1610. Or a similar method was used.

1612. Refresh on the Snowden leaks to get a feel of what's possible.
