10. I'm staying on top of inactive guys. Most are still involved technically speaking just not active in here for different reasons.
11. 
12. Some will likely get more active in the future.
13. It's only about 5 max that have gone totally dark.
14. Anyway I will be doing some housecleaning in the near future.

32.

33. i know a few people who got visited by the FBI and cops because of their posts

34. doomsayeth

35. You have to seriously fuck up to get a visit from the feds imo.

36.

37. Grimoire

38. they werent making any direct threats

39.

40. but didnt use a VPN

41. i cant get the site to load with a VPN on so i assume torba wants as much data as he can from people to share

42. i saw someone screenshotted me a post of his the other day talking about sending in ID to verify yourself as not being a spam account and saying your info wouldnt be stored

43. lol

44. doomsayeth

45. But I also agree that anyone who thinks Torba is really in it to preserve free speech, is a fool.

68.

69. You don't have people who post good shit like on twitter, and it's only us

70. So why even bother?

71. plus you have a large amount of loonies on there it seems like

72. d00mr

73. It's nice to have our own safe space, even if a bunch of infighting occurs. Ultimately I don't care about /most/ infighting because it's how weak ideas get crushed, and how stronger ideas become more dominant.

74.

75. Arcturus

76. yeah but lets be real people aren't convinced by discussing shit online 90% of the time

77.

78. it's just wasting time arguing

79. It can be good to refine your own ideas though

80. d00mr

81. I don't think it's about convincing people, rather it's about swaying people's opinions. Then those people, of whom are of strong character, will seek the truth and convince themselves.

82.

121. Going back to a convo we had right after the elections, this is a good example  
of what I was talking about.

122.

123. [https://www.breitbart.com/politics/2018/11/18/orange-county-immigration-midterms-blue/amp/?\\_\\_twitter\\_impression=true](https://www.breitbart.com/politics/2018/11/18/orange-county-immigration-midterms-blue/amp/?__twitter_impression=true)

124. Orange county in CA 4 years ago was undisputed Republican territory

125. In a sea of blue it was a fortress of red.

126. Because of rich white boomers.

127. Even though most of these "foreign born" Democrat voters are not necessarily  
violent criminals, they will destroy what's left of the wealth and culture of OC. This is the  
future for the whole U.S.

128. charnaz1488

129. Did they "find" ballots?

130.

131. To me it's more clear election fraud like Boward county more than boomers  
132. doomsayeth

133. There has always been election fraud.

134.

135. It's rampant.

136. Verdomme Z

137. Democracy is inherintly fraudulent is it not?

138.

139. Not much to be shocked about

140. doomsayeth

141. Thats where I'm at now.

142.

143. charnaz1488

144. Yes but I'm just saying you cant lay that on boomers feet at least all the way you have to go back much farther to find the people to blame

145.

146. doomsayeth

147. It's not about being shocked

148.

149. It's about spitballing a timeframe before balkanization or collapse

150. charnaz1488

151. I'd say it's more rich kikes and maybe some faggot race trations. I would say next 40 years tops or sooner something will happen either small collapse that will lead to balkanization or full on collapse

152.

153. Verdomme Z

154. You could blame boomers for becoming complacent

155.

156. doomsayeth

157. I blame boomers for almost everything tbh

158.

159. Verdomme Z

160. That is completely fair

161.

162. charnaz1488

163. You could blame the greatest generation for fighting against the Reich

164.

165. doomsayeth

166. Real fucking boomers you dickheads!

167.

168. Arcturus

169. I don't know if democracy is inherently fraudulent, probably mostly kikes and  
muds tbh

170.

171. republicans don't seem to do that shit too much

172. charnaz1488

173. Hahhahaha boomers are fucked but the sickness started much ealrier

174.

175. Arcturus

178. may just be that way across the board I'm not sure

179. Verdomme Z

180.

181.

182. Arcturus

183. I don't know if democracy is inherently fraudulent, probably mostly kikes and  
muds tbh

184. Democracy is the illusion of choice

185.

186. charnaz1488

187. Democry is flawed and fardualent 9 times out of ten

188.

189. doomsayeth

203. The founding fathers fucked up.

204.

205. Arcturus

209. Lol

210.

211. charnaz1488

212. Voting will always be mob rule. If it does we kill him simple

214. Arcturus

215. easier said than done

216.

217. doomsayeth

218. Why don't we just design a pro white AI to run the fucking world?

219.

220. Verdomme Z

221. Small groups control the government

222.

223. Arcturus

224. remember the history of the US?

225.

226. charnaz1488

227. AI could become corrupted as well

228.

229. Arcturus

230. revolutionary to start, say kill them if they get out of control, later generations got complacent

231.

232. doomsayeth

233. No one man could handle that much power.

234.

235. Arcturus

236. same shit will probably happen then

237.

238. Verdomme Z

239. That's why its small groups

240.

241. doomsayeth

242. Give it to an AI

243.

244. Arcturus

245. it's probably the natural way of things

246.

247. charnaz1488

248. The us system is flawed they didnt limit government power enough. Or its capitalism and the richest are always in power

249.

250. Arcturus

251. sure, I was speaking just to that one core concept of the country though

252.

253. charnaz1488

254. Capitalism helps make people complacent as well we as a country have become to comfortable even the poor use drugs and such to become comfortable

255.

256. doomsayeth

257. There is nothing inherently wrong with "capitalism"

258.

259. Human nature is capitalism.

260. Arcturus

261. ooooooh boy

262.

263. doomsayeth

264. We capitalise on our environments.

265.

266. Arcturus

267. anti capitalism shitstorm inbound

268.

269. doomsayeth

270. Free markets still exist in socialist society.

271.

272. charnaz1488

273. I disagree human nature is the strong take what the weak have. Capitalism lets the weak have power they don't deserve through character and strength

274.

275. Verdomme Z

276. [00:26](#) Capitalism is the pursuit of material gain and pleasure

277.

278.

279. charnaz1488

280. [00:34](#) Chaos by definition is the opposite of order

281.

282. No ideology that exists is completely natural

283. Verdomme Z

284. Explain how nature is so chaotic in the sense you are talking about

285.

286. doomsayeth

287. What most of you are familiar with is the concept of "industrial capitalism"

288.

289. Which is corrupt and abusive, to nature, and to society.

290. charnaz1488

291. For example a asteroid could hit the earth and wipe life off the planet chaos

292.

293. doomsayeth

294. The idea of "natural capitalism" can exist quite well under the frame work of natsoc.

295.

296. Verdomme Z

297. Luck is not a constant

298.

299. An asteroid hitting us is not a constant

300. charnaz1488

301. Natural capitalism sounds like an oxymoron but I'm not an expert on capitalism  
you could be right there

302.

303. No its chaos it exists it's happened before

304. Verdomme Z

305. Ok so one example that is a relatively rare occurrence

306.

307. Do you have another

308. charnaz1488

309. It still happens naturally

310.

311. The population of animals can be chaotic

312. Verdomme Z

313. explain

314.

315. charnaz1488

316. They can die off with no explanation or explode with no explanation

317.

318. Verdomme Z

319. Natural selection

320.

321. charnaz1488

322. The Canadian lynx is an example they have a chaotic population growth

323.

324. Even that doesnt explain it

325. There are no factors that explain why it happens why it's called chaos

326. Order is a part of nature a large part but chaos exists naturally

327. Verdomme Z

328. Chaos is everywhere

329.

330. charnaz1488

331. NS is close to nature when we talk about order however it's not a perfect representation

332.

333. Yes exactly my point

334. Verdomme Z

335. But like I said before chaos and order are symbiotic

336.

337. charnaz1488

338. They can be for sure but sometimes things just happen and they dont hel anything and they may not harm anything and theres just no explanation for it

339.

340. Verdomme Z

341. Exactly shit happens

342.

343. charnaz1488

344. And you said nature is order

345.

346. It's not just order was my whole point

347. Verdomme Z

348. Nature is order

349.

350. charnaz1488

351. You just agreed chaos happens in nature and again chaos is the opposite of order

352.

353. Verdomme Z

354. Chaos is a part but that does not change the fact that it is order

355.

356. charnaz1488

357. It is a large part but not the whole

358.

359. National Socialism is not just nature it's a ideology in my opinion and other national socialists opinions but it is a part of nature just not all of nature.

360. doomsayeth

361. You realize "nature" by definition does not apply to human beings, or human creations, right?

362.

363. We exist outside of it.

364. charnaz1488

365. Yes I do

366.

367. Verdomme Z

368. Ok we have a boomer

369.

370. charnaz1488

371. I agree with you entirely man is above nature it's the truth at least as we are right now. That may not be a totally good thing

372.

373. Verdomme Z

374. "duhhh hummans make shine things, we are above natur"

375.

376. doomsayeth

377. You just said earlier you wanted to be clear about definitions

378.

379. charnaz1488

380. Okay that's not an argument

381.

382. Verdomme Z

383. Like you said before an asteriod could wipe us out at any time

384.

385. doomsayeth

386. Yes or no?

387.

388. Verdomme Z

389. We can't stop that

390.

391. charnaz1488

392. Yes it could and that's chaos but we could also destroy an asteroid if we wanted too

393.

394. We are working on ways to deal with them rn

395. Verdomme Z

396. We aren't above nature, because it can kill us before we kill it

397.

398.

Disease

399.

charnaz1488

400.

We've been to the moon that's not natural

401.

402.

Verdomme Z

403.

Solar flares

404.

405.

charnaz1488

406.

We exist slightly outside of it

407.

408.

Verdomme Z

409.

Black holes

410.

411.

charnaz1488

412.

Again random chaotic things that prove nature isn't order

413.

414.

Verdomme Z

415.

We are nothing more than smart animals that made good with our resources  
and did incredible things

416.

417.

But its part of nature

418.

charnaz1488

419.

Yes incredible non natural things. You said it was nature

420.

421.

Not just part

422.

Arcturus

423.

if everything is nature isn't the concept of nature meaningless?

424.

425.

Verdomme Z

426. Your tools don't make you better than what you are

427.

428. Arcturus

429. and if we exist within nature then everything we've created is natural

430.

431. charnaz1488

432. They certainly help and they're not natural.

433.

434. Arcturus

435. so everything is natural and the word is devoid of meaning

436.

437. charnaz1488

438. You do have a point there

439.

440. Verdomme Z

441. Dude nothing matters lamo

442.

443. charnaz1488

444. If what you say is true yes nothing really matters

445.

446. Verdomme Z

447. Your tools are just advanced rocks, but the way you act can be unnatural

448.

449. Humans have the choice

450. Arcturus

451. if we exist entirely within nature our behavior is natural

452.

453. Verdomme Z

454. No because we can act outside of instinct

455.

456.

charnaz1488

457.

And therefore we can be out of nature if we have a choice

458.

459.

Arcturus

460.

at that point unnatural is basically a pejorative that = bad thing

461.

462.

charnaz1488

463.

Yes people do all the time

464.

465.

Arcturus

466.

okay so we do exist outside of nature to some degree then

467.

468.

Verdomme Z

469.

You can chose to

470.

471.

charnaz1488

472.

They act the Opposite way there instincts tell them

473.

474.

Verdomme Z

475.

That is the whole problem with today

476.

477.

charnaz1488

478.

Even national socialism isn't perfectly natural

479.

480.

It's better than nature

481.

doomsayeth

482.

Oh god. I could just punch myself in the dick until I pass out right now.

483.

484. Verdomme Z

485. People are acting as if they are out of nature's grasp

486.

487. NO ONE IS

488. charnaz1488

489. Yes we as humans are better than nature we can do things nothing else on this planet can we can defy our nature and natural instincts

490.

491. Verdomme Z

492. No we aren't better than Nature because nature can fucking decimate us in an instant

493.

494. charnaz1488

495. Cognitive thought makes us better

496.

497. Verdomme Z

498. Makes us better than animals not nature

499.

500. Arcturus

501. and we can decimate it in an instant

502.

503. we are slowly

504. Verdomme Z

505. Try it

506.

507. charnaz1488

508. Sure but we could also find away to survive as well and ^^

509.

510. Arcturus

511. so who is above whom?

512.

513.

charnaz1488

514.

The planet is dying

515.

516.

Verdomme Z

517.

Nature will outlast humanity

518.

519.

charnaz1488

520.

It's being fucked up rn if we change our ways it will

521.

522.

Otherwise we will outlive it

523.

Arcturus

524.

I don't know dude if you nuke the planet with every existing nuclear ICBM it would probably not recover lol

525.

526.

Verdomme Z

527.

This is one fucking planet, stop being so narrowminded

528.

529.

Arcturus

530.

so what, nature means alien worlds too?

531.

532.

Verdomme Z

533.

YES

534.

535.

charnaz1488

536.

I'm not saying its good we are better than nature but we are. Without this planet right now what is there

537.

538.

Verdomme Z

539.

OF COURSE IT FUCKING DOES

540.

541.

charnaz1488

542.

We have no idea how other planets work

543.

544.

Verdomme Z

545.

Exactly

546.

547.

Arcturus

548.

as far as we're concerned earth is it

549.

550.

charnaz1488

551.

They could be the complete opposite as ours and seem unnatural

552.

553.

Verdomme Z

554.

That doesn't make them unnatural

555.

556.

Arcturus

557.

other planets don't matter lol

558.

559.

Verdomme Z

560.

This is the exact problem, humans don't understand what is outside their tiny little sphere

561.

562.

Nature is bigger than everything you will ever know

602.

603. charnaz1488

605.

606. Arcturus

613. I'll be long dead by the time a state with a leader emerges

614.

615. That doesn't mean I shouldn't think about it

616. Arcturus

617. In reality someone else, probably completely unrelated to us will be the one calling the shots regardless of what we think

618.

619. Verdomme Z

620. Or anyone shouldn't for that matter

621.

622. charnaz1488

623. Maybe. Sure you can think about it but dont take it so seriously is all I'm saying  
it's fine to have this discussion for sure just no need to take it serious

624.

625. Verdomme Z

626. Yeah your right I'll just shitpost about some of the greastest existential  
questions of all time

627.

628. charnaz1488

629. Probably tbh imo I'm just a foot soldier if it comes to that.

630.

631. Exactly

632. Just take it easy people will disagree with you it's no big deal we all have the  
same goal

633. Verdomme Z

634. No i'm just saying you don't understand your own worldview, and your  
perspective is too narrow, and you are incinuating that it's too much work to think about  
more than one thing at a time

635.

636. But hey that's just me

637. Good chat b

638. charnaz1488

639. My worldview is my worldview

640.

641. And other national socialists worldviews as well maybe we are wrong maybe  
you're wrong in reality none of us know and probably never will

642. I dont fit your definition doesnt make me wrong or others that agree with me  
wrong

643. Verdomme Z

644. Not my definition

645.

646. charnaz1488

647. The esoteric definition then

648.

649. I'm not an esoteric national socialist I don't see it as spiritual or as nature to me  
it's an ideology

650. rimbaud

651. our people will have no future unless we start looking beyond ourselves and  
our people in the temporary. i think it's pretty important to think about nature and what  
we can do to undo the damage being done

652.

653. i also get that we're "above" nature in a way, but i don't think that's ideal

654. charnaz1488

655. I agree the planet is important and I don't think its ideal just a fact

656.

657. rimbaud

658. btw what's your definition of esoteric fascist?

659.

660. esoteric nat soc, i mean

661. charnaz1488

662. I personally think we need to go back to basics and give ourselves back to  
nature at least in part.

663.

664. rimbaud

665. i agree with that. i think we should look for a more rational coexistence

666.

667. Arcturus

668. Agreed

669.

670. rimbaud

671. which is the opposite of what we're doing now. we're all obsessively "living in  
the moment" which leads to bestial, selfish indulgence

672.

673. charnaz1488

674. I think they take it more as a law more than ideology they take it to the point to  
where I don't agree with it anymore I kind of understand it just dont agree.

675.

676. They tend to take it spiritually and like it's a law of nature and in my experience not many agree or understand it

677. rimbaud

678. like sevritri devi's nat soc, and like all the mysticism and stuff behind nat soc?

679.

680. yeah i have trouble getting into that as well, but it's fascinating to read and fantasize about

681. to me its primarily about people, and transcendence through a genuine sense of working for the same struggle

682. charnaz1488

683. Yeah exactly I'm the same I love talking to the esoteric guys I'm just not into it and I've read and started reading some books on it just not finding it to be that compelling like say mine Kampf and white power where

684.

685. rimbaud

686. yeah i think the spiritualism has its place, but perhaps that's something that would become more important once the groundwork has been established.

687.

688. charnaz1488

689. Yes I agree we can reach a higher level through struggle we need struggle. I agree with that as well it will be important but for now we need to focus on the here and now the problems we face

690.

691. rimbaud

692. i think the most important thing right now is converting minds and collectivizing. the mysticism does very little to positively add to the real, physical movement

693.

694. charnaz1488

695. ^^ yep if anything it turns people away from the ideas

696.

697. Arcturus

698. I'd say when its out in the open it detracts tbh

699.

700. charnaz1488

701. Yes it does I dont mind the guys in here that are esoteric i enjoy the little arugments and disagreement even when we threaten each other lol. But its definitely not the way to get the most people on our side

702.

703. juppi

704. Discussions about morality, nature, human nature ect should be kept as a side activity for now

705.

706. rimbaud

707. i think i redpilled my younger sister on the jews today lmao

708.

709. btw

710. Arcturus

711. Nice

712.

713. rimbaud

714. and i began painting hitler in a positive light, just planting the seeds

715.

716. juppi

717. And I don't believe anyone is trying to recruit people by preaching about nature of all things

718.

719. charnaz1488

720. Very nice. My gf is so anti hitler that's the worst place to start I have her hating "elties" now I just have to show her who they are. ^^ yes that can come later and it could be valuable but right now its not

721.

722. rimbaud

723.           yeah i started off by talking about the terror of bolshevism and the soviet union, and how hitler was a reaction to all of that shit, and then told her about the natsoc idealism

724.

725.           she's a college-tier liberal but fairly open minded to new ideas

726.           juppi

727.           Same here. But I got her to dream about living on a farm.

728.

729.           rimbaud

730.           ^comfy

731.

732.           juppi

733.           Her hate for hitlers comes from being part german

734.

735.           charnaz1488

736.           Very good place to start people that hate communism are very easy to red pill.  
Same German college liberal and now she wants to live on a farm and start a large family comfy as fuck

737.

738.           ^^ germans have an irrational hate of Hitler

739.           I merely suggested that he did some good things and I got an earful lmao

740.           juppi

741.           Same here

742.

743.           charnaz1488

744.           She caught me reading white power and almost lost it I had to convince her I didnt know commander Rockwell was a nazi

745.

746.           juppi

747.           Its a hard game to play

748.

749.           But If I get her to live like I do her opinion on politics shouldn't matter.

750. charnaz1488

751. It is very hard but I just tell her my political views are very far right and shes fine with it. Same politics aren't really worth talking about with women tbh

752.

753. rimbaud

754. lol i broke up with my fiancé because it wasn't worth hiding my political views anymore. that, and i couldn't overlook the fact that she "wasn't sure of her pronouns".....

755.

756. fuck my life

757. Grimoire

758. i always miss when it gets busy in here

759.

810.

811.

812.

charnaz1488

814.

815.

Grimoire

816.

817.

818.

charnaz1488

821.

Grimoire

822.

i enjoy shooting things

823.

824.

id rather hang white traitors

825.

or crucify them

826.

charnaz1488

827.

Oh I love shooting things but hanging niggers in trees and having a good bonfire is always fun. They get the rope first race traitors and nigger lovers get no mercy

828.

829.

Grimoire

830.

shooting is mercy to me

831.

832.

easy death for both parties

833.

or explosives

834.

charnaz1488

835. Hmm not personally enough let's just say I'd rather gut a nigger alive than anything in a hypothetical self defense situation of course

981.

982. Norman Spear

983. Yeah we more or less decided that warlordism is the way forward. The book club texts are often a jumping off point for other discussions.

984.

Thanks cadiantrooper i dont use discord anymore though.

992.

There are kids books about warlords? How did I miss those?

994.

Grimoire

he said rise of the warlord, that's a fiction trilogy for kids

996.

997.

so that was my assumption, lol, what is the name of the book you switched to?

998.

if it's on discord i'm going to have to abstain, i'll be there in spirit :P
