2. [04:08](#) AZ is the best when it comes to gun laws.

3. 
4. Pymander
5. @doo

6. 
7.  doomsayeth: yeah it is. Georgia is pretty solid too
8. AZ is a be polite to people because anybody might shoot you at any time state
9. how it oughta be
10. doomsayeth
11. Yup, the whole "armed societies are polite societies" adage is not wrong.

12. 
13. Pymander
14. indeed

15. 
16. doomsayeth
17. I went to a cafe in the town I moved to in AZ a few months after move was finished, and I think at least 75% of the people in the restaurant were carrying a weapon on their hip.

18. 
19. I was like, fucking a right.
20. These people know what's up.
21. Coming from Cali where everyone is a disarmed bugman.
22. Pymander
23. when they filmed the original tombstone movie with kurt russell, and val kilmer, my uncle was working on a case down in that part of the state, he was a homicide detective, and was at a bar and someone working on the movie came and told him he looked just like val kilmer did, and brought my uncle to meet everyone in the cast

24. 
25. funny shit
26. val kilmer looks like shit now, should grow a mustache again to hide that face
27. Pymander
28. i destroyed the conversation

29. 
30. hahaha
31. doomsayeth
32. Meh, it was on the way out.
33. 
34. Norman Spear
35. Pymander: i read a little about north Korea support to American radicals but nothing specific to AWD. I'll see if I can dig up the article.
36. 
37. This is a pretty interesting read on the subject:
38. <http://www.nate-thayer.com/white-power-and-apocalyptic-cults-pro-north-korean-americans-revealed/>
39. doomsayeth
40. I think we're screwed when it comes to outside assistance.
41. 
42. ZOG has their hands in all the black ops cookie jars.
43. Norman Spear
44. Yeah we already have all the weapons we need anyway.
45. 
46. We just lack the willpower to use them for the most part.
47. Same with money if you think about it. With money it's a matter of lack of focus.
48. Arcturus
49. Pretty much, yes
50. 
51. later we may need both though
52. Norman Spear
53. If i remember correctly, one estimate i read about IRA monthly expenditure was approximately 1 million pounds per month. But i need to dig it up again.
54. 
55. Pymander
56. I still have the opinion, in contrast to those who think the US will use the military to stop any kind of uprising, or revolution. I think that members of the armed forces in

majority won't be able to turn their training on their family, friends, communities, loved ones.

57.

58. I think the government will have to rely upon lots of federal agents, like how homeland security has such a vast cache of guns and ammo

59. and only the dedicated federal loyalists will stand by the government and kill their own people

60. I feel like the military would at very least have massive desertion, and some bases and forts turning against the government on the principle of not killing their own, even if they are cucked amnats, democrats, whatever

61. they'll need mercenaries to withstand a full uprising

62. That's just my gut feeling, I don't claim to be right

63. doomsayeth

64. The military will kill U.S. citizens.

65.

66. Pymander

67. I don't think so.

68.

69. Norman Spear

70. I agree the military won't be used extensively but for different reasons. I think it's more an operational issue and jurisdictional issue m

71.

72. doomsayeth

73. I'm sure of it. They might balk at killing their own family.

74.

75. Pymander

76. Maybe some, but I think a lot would desert over that.

77.

78. It's impossible to be sure of it.

79. doomsayeth

80. Depending on the background situation. Im sure some would desert.

81.

82. Norman Spear

83. I don't think there'll be a need for widescale deployment of the military

84.

85. doomsayeth

86. But many would just follow orders.

87.

88. Pymander

89. from casual conversations when i was in the army, people didn't even trust the government very much

90.

91. Norman Spear

92. It'll be mostly targeted intel driven ops

93.

94. Pymander

95. yeah, devoted federal agents, and mercenaries.

96.

97. Norman Spear

98. Much of the military is pozzed and/or comprised of ZOG bots

99.

100. Pymander

101. the military wouldn't have the stomach for open war on the american populace, but that's just a feeling I have.

102.

103. Norman Spear

104. There won't be a need for open war against the public

105.

106. Pymander

107. i'm talking about it it because full collapse of social structure and the country becomes a collection of combat zones and guerrilla attacks

108.

109. if it*

110. Norman Spear

111. Oh ok. Still Any resistance will be relatively small and localized that's why targeted ops would be sop.

112.

113. Pymander

114. becomes* fuck, my fingers are retarded

115.

116. doomsayeth

117. IMO there will be a "martial law" scenario in the near future.

118.

119. Norman Spear

120. Martial law os also a limited use of force scenario

121.

122. We won't see deliberate clearing ops for example.

123. Pymander

124. yeah probably, but I don't think it will work, the more the government would try to escalate combat against an insurgency, the more desertion they would have, and more people rising up against them.

125.

126. Norman Spear

127. Only because the battlefield won't organically be like that.

128.

129. Pymander

130. there's no way of knowing

131.

132. I'm just musing about it

133. Norman Spear

134. Unless things degenerate to the point where large swaths of rural territory is held be guerrillas

135.

136. Yes many service members would desert but enough won't

137. Pymander

138. yeah, i think any uprising of any sorts is eventually going to rack up insane amounts of casualties

139.

140. Norman Spear

141. And with technology today it doesn't take many to be effective from a targeting standpoint

142.

143. doomsayeth

144. Maybe not, but I wouldn't rule it out.

145.

146. A scenario like " the siege" movie with bruce Willis is not impossible to imagine.

147. Pymander

148. there's more veterans than there are active duty soldiers, and they'd know it. it would take some real brainwashed people to unleash hell on the american population, but that's just my opinion

149.

150. Norman Spear

151. I think unless the mental programming can be broken we won't see significant resistance to the degree that they'll be pitched battles

152.

153. Pymander

154. True, but one base that defected could cause colossal damage

155.

156. Norman Spear

157. Theoretically yes but an entire base or unit won't defect

158.

159. Pymander

160. I just don't think the average enlisted forces, even a lot of special forces, will be able to stomach it if it builds up to massive casualties

161.

162. Norman Spear

163. Some elements but they'd be wiped out almost immediately

164.

165. I agree but their won't be massive casualties is my point

166. It will be targeted raids and drone strikes

167. Pymander

168. then how is a winning insurgency going to be possible?

169.

170. Norman Spear

171. Psychological attrition

172.

173. Pymander

174. so the american people decide they don't like the government anymore?

175.

176. like that?

177. Norman Spear

178. Yes and for others pressure the government to negotiate because the cost is becoming too high

179.

180. Pymander

181. it will take a bit of time in any scenario to bring the scattered active duty forces all back to mainland

182.

183. Norman Spear

184. The financial impact would be significant especially at the state and local levels

185.

186. Tourism, local businesses, etc

187. doomsayeth

188. This is also based on the type of collapse that we experience.

189.

190. The theorizing, I mean.

191. Pymander

192. so eventually the government will just surrender?

193.

194. Norman Spear

195. Nonstop state of siege via martial law and regular disruption of utilities and vital services

196.

197. doomsayeth

198. The frog in the pot is a good analogy.

199.

200. Norman Spear

201. Ues they will be forced to acquiesce

202.

203. Pymander

204. frog in the pot?

205.

206. don't know that one

207. Norman Spear

208. But that's why only separatism can work if attacking the System directly

209.

210. Pymander

211. I'm playing devil's advocate in a sense, throwing random scenarios out there, I genuinely have no clue, and none of us really do.

212.

213. It's honestly even hard to visualize enough people and willpower assembling to actually challenge the system with any type of attacks

214. juppi

215.

216.

217. Pymander

218. frog in the pot?

219. Pymander: You put a frog in a pot of hot water it jumps out. If you put the frog in a pot with mild water and slowly start increasing the heat the frog will stay in it until it

dies.

220.

221. Pymander

222. yeah okay i've heard that before

223.

224. Norman Spear

225. Well there's a difference between predicting and strategizing

226.

227. Pymander

228. I think we are 4-5 generations or so away from anything actually happening in any sense of rhetoric

229.

230. Norman Spear

231. However I agree that we likely don't and won't have enough manpower to fight in such a manner without collapse of some sort

232.

233. Pymander

234. people will be kept somewhat pacified by even stronger means as technology grows

235.

236. Norman Spear

237. Only due to lack of willpower though.

238.

239. Definitely

240. Pymander

241. right, i don't think the military technology is the difference maker, it's the willpower on either side

242.

243. Norman Spear

244. Yes i agree

245.

246. I'm only pointing out that the tech allows the military to do more with less manpower

247. But the human factor you're highlighting is real and an important part no doubt

248. Pymander

249. we couldn't even break the spirit of pashtuns in caves with primitive weaponry while we have drones and PEQs on rifles to zero in targets from air support or artillery, the massive air superiority in general

250.

251. it's an interesting thought, to think about the willpower on both sides, and what is the breaking point for each

252. Norman Spear

253. Yes that how we need to look at it

254.

255. It's primarily a psychological battle

256. Pymander

257. i know most people i served with would probably desert if it came to strafing civilians in towns suspected of harboring insurgents

258.

259. but who knows

260. there needs to be a psychological edge to break the spirit of the government, however powerful they remain

261. Norman Spear

262. But ZOG knows that too and that's why those tactics won't be employer

263.

264. *employed

265. Pymander

266. [05:49](#) thats the only way i see anything ever working, their will to fight their own people is weaker than revolutionaries will to destroy the old and install a new regime

267.

268.

269. Pymander

270. [05:53](#) but i'll probably grow old and die before it happens i feel.

271.

272. Norman Spear

273. The only reason none of this is doable is because lack of will which means lack of numbers

274.

275. It's frustrating because it wouldn't take alot.

276. But human nature being what it is, we're up against alot and it becomes a monumental task without some significant collapse that may or may not happen

277. Pymander

278. i remember alt right folks being so excited about "generation zyklon" a few years ago, and sure, the internet lets the ones in our ideological sphere to project extreme zeal, the whole edgelord shit, etc, but I think the vast majority are useless, and it's one of the weakest generations we have yet

279.

280. Norman Spear

281. I think we're doing the only thing that can be done namely trying to radicalized and accelerate while preparing.

282.

283. Pymander

284. i see so many walking around in public or biking, skating, driving, unable to stop looking at their phone, or constantly playing electronic games

285.

286. I think it's going to depend on the millenial age group

287. not the gen z

288. and their fortitude and actions

289. Norman Spear

290. Absolutely

291.

292. wolfrik

293. Ok not cool

294.

295. Pymander

296. no talk of revolution, or an uprising is "cool" lol, it's going to make people analyze and face a lot of facts they might not want to

297.

298. Norman Spear

299. As soon as someone is in the university system they have become a part of the System at large and there's a very narrow window of opportunity to radicalize them before it's too late and they're too beholden to the System m

300.

301. wolfrik

302. It is a joke pymander, because you are saying shit about my terrible generation

303.

304. Terrible*

305. Pymander

306. if you are an exception, then you shouldnt take offense

307.

308. and shouldnt take things personally anyways

309. everyone's actions and words are because of themselves

310. Norman Spear

311. Only 1.out of 5 college Republicans openly support Trump. I read that somewhere recently.

312.

313. wolfrik

314. My generation are more concerned with Fortnite tbh

315.

316. Pymander

317. yeah.

318.

319. its unfortunate

320. wolfrik

321. Its disgusting

322.

323. Pymander

324. but I see a young generation totally absorbed in the entertainment and environment made to keep their minds busy and distracted

325.

326.

Norman Spear

327.

Yes and older generations too to a great extent

328.

329.

wolfrik

330.

And i would say are probably the most easily absorbed into influence

331.

332.

Like these people will do ANYTHING to be popular and liked

333.

Even more so than later gens imo

334.

Pymander

335.

another thing that worries me about the new generation of adults is the continuing concentration of pharmaceutical metabolites in public drinking water, a vast amount of potable water sources for public are getting metabolites from birth control, so many antidepressants, antipsychotics, and a lot of these remain active in some level

336.

337.

so i worry in general about the hormonal and mental health of the generations to come

338.

Norman Spear

339.

Most people are followers in any case

340.

341.

wolfrik

342.

Remember that mens sperm rates are dropping at an alarming rate

343.

344.

Pymander

345.

i swear i see so many males 17-20ish look way to androgenous, and i think its from so many years of birth control metabolites bonding with receptors for other sex hormones in their bodies

346.

347.

yea, public water is probably a major cause of sperm count dropping

348.

Norman Spear

349.

All these reasons are why only a radical vanguard can accomplish anything

350.

351. wolfrik

352. And food packagings and such

353.

354. How old are you pymander?

355. Pymander

356. and foods are being grown in an increasingly mineral depleted soil and the concentration of important nutrients is going down

357.

358. in between 27 and 33

359. :)

360. wolfrik

361. Ok

362.

363. Pymander

364. i don't know anything about you so im not going to give an exact age, haha

365.

366. first conversation i think we've had

367. wolfrik

368. Fair enough

369.

370. I myself am 17

371. Pymander

372. im a biochemistry major though, and the stuff in water disturbs the shit out of me. I'm not even one of the fluoride is calcifying your pineal gland! people, i make fun of them

373.

374. wolfrik

375. I wanna do Physics of some sort tbh, Astrophysics seems most likley.

376.

377. Although im not sure if that is a good idea

378. doomsayeth

379. Gen Z spens alot of time talking about "fashy" shit on Twitter, repeating hashtags, complaining about social media bans and suspensions, and not much else

from my experience.

380.

381. Pymander

382. physics is tough, but rewarding. i didnt like it much but i appreciate it

383.

384. know your calculus super well!

385. pharmaceutical use has gone up so much, and more and more active metabolites are being pissed out, flushed down the drain or toilet, and the water reclamation and treatment processes used for the public don't remove them for the most part

386. that's what bugs me about water, and people who've been drinking it for a long time as it grows more laden with compounds that will affect people physically and mentally

387. ha, which brings me to a thought i've wondered about before, if any type of sustainable insurgency in a collapse will need to utilize chemical warfare

388. but that's a whole different discussion lol

389. sorry to those who are going "what the fuck is this guy going on about?"

390. wolfrik

391. I'm reading it so

392.

393. Pymander

394. just felt like throwing out some concerns, and hypotheticals that i normally dont talk about or view in that way, see what thoughts would be

395.

396. wolfrik

397. Right

398.

399. Pymander

400. I wonder, if for a collapse to happen and things to unfold properly in some way, we need the government to get involved in another costly, pointless war across the globe

401.

402. wolfrik

403. Doubt it

404.

405. Pymander

406. well, that's the biggest way for the government to blow its money

407.

408. and one factor we talk about is the need to weaken them financially

409. it wouldn't hurt

410. wolfrik

411. I am sure the constant attacks on their infrastructure and services would be rather costly, money matters not anyway they will just shalom more from the fed if my understanding is correct.

412.

413. Pymander

414. wouldn't it be more beneficial for a lot of combat forces and equipment to be far away, engaged in something else, and draining money at an insane rate with military spending though?

415.

416. the cost of a single javelin, or a predator drone, a cruise missile, those numbers are surprising when you look at them

417. and it'd stretch resources as well, not just finances

418. the Joint Strike Fighter program was a money vacuum for example, insane billions of dollars were spent on it, and there's not that many operational ones after so many years of setbacks and fuckups. That program in itself allowed the Chinese and Russians to cut a lot of the distance in terms of military technology between us and them, they were able to upgrade quite a bit while we flailed for a long ass time and still haven't gotten it 100%

419. haha, some social i know who constantly gets banned on facebook, and still has a fully public profile is constantly spewing far left rhetoric, this made me laugh. He posted this meme:

420.

421. Decrypt image.png (327.65 KB)

422. one of the people commenting said this: "Has it ever been a left-wing false flag in modern American times??"

423. hahahaha!!!!!!

424. it's crazy sometimes to think about how brainwashed these people are

425. I'm just spewing out lots of random shit because despite being very radically "right wing", fascist, i still put myself in the heads of the other side and try to think like they do

426. not necessarily recommended :P

427. wolfrik

428. God i hate the NPC meme

429.

430. Pymander

431. it's getting stale fast

432.

433. the "it's okay to be white" one annoyed me pretty bad

434. wolfrik

435. Yeah

436.

437. Holy shit i hated it

438. Pymander

439. like no shit its okay to be white, its GREAT to be white

440.

441. wolfrik

442. It is grand to be european, fuck niggers is what it should of said, still would be useless but it would be funny

443.

444. Pymander

445. yeah

446.

447. i think reverse propaganda to scare whites should be utilized more

448. wolfrik

449. I also despise any movement, especially the Identity ones. like identity europa and shit like that

450.

451.

452.

453.

454.

455. Pymander

456. putting fake gang shit up in upper class neighborhoods, areas where there arent any spic or nigs, anti white flyers, whatever

457.

458. IE is sketchy as fuck

459. that's some sort of fed datamining thing

460. if they let a convicted felon who got a dishon discharge from the military for being drunk and drugged and committing armed robbery with hate crime shit thrown into the case out wayyyyyyy before the california mandatory minimum....

461. and then he was allowed to start a non profit identitarian group making FUCKloads of untaxed money, while a background check would deny him a cart pushing job at walmart

462. ive noticed it seems like more members of IE have been doxxed than any other groups since it was created, and a lot were doxxings done by leadership giving member info out to antifa or posting it as antifa

463. Norman Spear

464. Regarding financial pressure it needs to be focused at the state and local level not federal because the feds can print money endlessly but small businesses have loans that need to be paid and families to feed etc

465.

466. Pymander

467. Norman Spear: haha sorry for throwing a lot of wild pitches into the conversation tonight

468.

469. just need to exercise that part of the brain now and then

470. Norman Spear

471. No worries. Keeps things interesting.

472.

473. wolfrik

474. Norman Spear: What i thought

475.

476. Grimoire: Although i can see your point

477. Norman Spear

478. The small business owners then pressure the politicians to do something about it.

479.

480. Pymander

481. Yeah local and state will feel financial issues way before they do federally,
thats true

482.

483. Norman Spear

484. Then the finger pointing blame game takes off

485.

486. Pymander

487. so what are the best ways to target that? other than hoping insane federal
spending will make them print so much money it inflates things or causes some
economic anomaly

488.

489. what were u sayin  Wolfrik

490. Norman Spear

491. Well I don't want to get too specific here but essentially think nationally and act
locally

492.

493. Pymander

494. yeah

495.

496. of course, this is just hypothetical talk, no seriousness at all!

497. Norman Spear

498. It's not something that only a handful of guys can pull off successfully but it
also doesn't necessarily require tens of thousands

499.

500. Unabomber was a good example

501. He got his demands met as far as his manifesto published by using coercion

502. Imagine if there were 1000 "unabombers"

503. Hell imagine if there were 100

504. But they would all need to be on the same page so a degree of coordination
would likely be required somehow

505. Pymander

506. yeah, Ted was literally a genius

507.

508. doomsayeth

509. Good point.

510.

511. Norman Spear

512. One nog sniper shut down DC for a couple of weeks

513.

514. doomsayeth

515. I agree with Norman, the fed has unlimited money to spend. At least while the U.S. dollar is the world reserve currency.

516.

517. Norman Spear

518. Well didn't shut it down but people were scared as fuck

519.

520. doomsayeth

521. Yeah, and he wasn't even good.

522.

523. Pymander

524. that'd take some major agency to get a lot of people like that to coordinate events that likely would cost them their lives, but i think something like that is what would be needed to break the hull

525.

526. breach*

527. doomsayeth

528. Not necessarily.

529.

530. Norman Spear

531. Yeah it's easier said than done but that what would be necessary

532.

533. doomsayeth
534. Pick the right ops

- 535.
536. Plan appropriately
537. Always weight risk v. Reward.
538. Pymander
539. it wouldn't take a lot of proper coordination and discipline? that's what i meant
when i said it would take a lot of agency

- 540.
541. Norman Spear
542. Imagine if there was a Unabomber now who's demand was to stop the caravan

- 543.
544. doomsayeth
545. I agree with that sentiment, I disagree with it likely costing people their lives.

- 546.
547. Norman Spear
548. And it worked n

- 549.

562. Decentralized as much as possible would obviously be necessary but if it's too decentralized it loses effectiveness so it's a conundrum

563.

564. Pymander

565. it seems that some initial mass coordinated events people would need to be mentally prepared to die for them to fully commit, but i dunno, maybe some thing they can strike first and walk free

566.

567. i think one of the "easier" paths would be through civil unrest and armed conflict happening from the MAGA folk and the zealot commies, if they did that all on their own, that seems like it would open a lot more potential

568. but i doubt they have it in em

569. Pymander

570. hey, if anything I'm saying sounds whack, I know a guy who will go on long tirades about how eating unsprouted grains is evil, and they have nanotechnology in them, that ZOG will activate with a radio "frequency wave" and "peroxides will cause

spontaneous human combustion"

571.

572. Norman Spear

573. Haha

574.

575. Looking at it in phases is correct. That's why acceleration is the number one task at hand at the moment.

576. Pymander

577. yeah.

578.

579. what're your thoughts on all of these "bombs" "mailed" to people?

580. i dont see any right wing person doing it and thinking they would really help the GOP, like the media seems to be starting to spin

581. Norman Spear

582. I don't know. Right now I'm leaning towards it's a retarded trolling thing but I'm not following it closely enough.

583.

584. doomsayeth

585. Wait...so that's not real?

586.

587. Norman Spear

588. I mean probably a Trump supporter.

589.

590. Pymander

591. yeah i haven't been either. I don't go on 4chan or other sites like that anymore
lol, only see screenshots people send me of them, that's where the autism flourishes

592.

593. At first when it was just Soros my reaction was he paid to have it done

594. Norman Spear

595. I just know their are alot of retards out there so that's why I don't rule it out

596.

597. Pymander

598. the part that does weird me out is the close up pics the media was allowed to
take of them, one looked like they were standing on the table over it against the wall, it
seems odd as fuck for LE to let them take any pictures or be near it

599.

600. just thinking of hte 5 Cs of IEDs

601. Norman Spear

602. That's true. Good point

603.

604. Maybe a whoever opened it took the pic

605. And then called 911

606. juppi

607. The CNN one is stupid. A office gets a unnamed packet, they open it, its a
"bomb", they don't run away but take pictures instead.

608.

609. Pymander

610. yeah i haven't followed it close enough because it's something I can't control
that will just stress me out or agitate me

611.

612. but yeah, the CNN one i saw and was like wtf?

613. Norman Spear

614. I'm just waiting for the official arrest to get more substantive clues before i
spend too much energy thinking about it

615.

616. Whoever the suspect is will be interesting

617. Pymander

618. yeah

619.

620. what a shitfest before midterm elections haha

621. Norman Spear

622. Whatever the case may be it helped trigger people so it's good

623.

624. Pymander

625. Trump becoming president turned the country into a reality TV show

626.

627. Norman Spear

628. Yeah totally

629.

630. Very entertaining if nothing else

631. verdomme

632. I wept a singular tear when he was elected

635. I thought it was funny

636.

637. Pymander

638. glad it's been calm where i live, some places it looks like daily commute is a chance to be dragged from your vehicle and beaten

639.

640. doomsayeth

641. I appreciate the effect he has had on the left. They are totally unhinged.

642.

643. Pymander

644. yeah

645.

646. agreed

647. wolfrik

648. It does not matter tbh

649.

650. doomsayeth

651. Before they were so smug and condescending, feeling their power to be secure and absolute

652.

653. Pymander

654. what, trump being elected?

655.

656.  Wolfrik:

657. verdomme

658. The left, and the right in some senses was always bound to unhinge itself

664. All of it Pymander

682. wolfrik

683. Would not be surprised

684.

685. Norman Spear

686. Yeah same

687.

688. These people are capable of anything so pedo stuff wouldn't surprise me much

689. They'll do whatever they think they can get away with

690. doomsayeth

691. There is something with jews and ritual child abuse.

692.

693. verdomme

696. Pymander

697.  Verdomme Z: i agree, it seems like it through a total hand grenade in the hivemind of the GOP though, they probably wanted Jeb or Rubio sooo bad

698. It is no different to them, even with a democrat victory they'd still be happy

699.

700. Pymander

701. i didnt follow it a lot, but the weird bitch with menstrual bloom and cum art was pretty insane that she does that, and podesta had a disturbing art collection

702.

703.  Verdomme Z: yeah maybe so, since trump was friends with a lot of them before he got political, and he's still one of the elite, with ivanka married to a jew, Jr. married to a jewess, dont know about the other offspring off top of head

704. verdomme

705.

706.

707. Pymander

708.  Verdomme Z: yeah maybe so, since trump was friends with a lot of them before he got political, and he's still one of the elite, with ivanka married to a jew, Jr. married to a jewess, dont know about the other offspring off top of head

709. you can't get to that position without being a kike/kike-lover or just so plainly brainwashed that you conform to the jews without their sway

710.

711. Pymander

712. yea, i agree.

713.

714. verdomme

715. The Jews don't even need to supervise anymore, their systems are already so imbedded that everyone just follows them anyway. Which is good because they are growing complacent I feel

716.

718. I think they were growing complacent, but not anymore.

719.

720. They have access to predictive algorithms, from Google, facebook, etc. They know that lots of people are waking up. I'm sure they are coming up with jew tricks to counter it.

760. Norman Spear

761. Perfect. Could only have been better if he actually knew what he was doing.

762.

763. This is internecine warfare essentially.

764. This is exactly what we want right now.

765. This guy took the MAGA vs Liberals civil war meme to heart. Too bad there aren't more like him out there. Hopefully there will be.

766. doomsayeth

767. Yeah, the left is going to step up their attacks based on the perceived "militancy" of the MAGA right.

768.

769. Hopefully it leads up to a "days of rage" type event.

770. Norman Spear

771. Ideally yes

772.

773. doomsayeth

774. It's good to be part of a community that sees these events through the lense that I do. Destabilizing situations will continue to occur with increasing frequency and intensity, we should plan accordingly.

775.

776. Norman Spear

777. Yes and simultaneously help accelerate in whatever ways possible.

778.

779. This defines the stage we're in now.

780. It *should* define it.

781. Preparation and acceleration should go hand in hand. They are two sides of the same coin.

782. In that regard we should celebrate the fact that this most likely *wasn't* a false flag and revel in the ensuing media shitshow.

783. That said, publicly trying to sow doubt with a false flag narrative can be beneficial if it adds to the chaos & confusion of the moment. But let's not fool ourselves.

784. *Let's not countersignal ourselves.

785. Privately at least.

786. Norman Spear

787. Ultimately whether it was a false flag or not doesn't practically matter because the acceleration effect is the same. If it was a false flag (which I seriously doubt), we should hope for more.

788.

789. void33

790. Yeah, it does not seem like a false flag

791.

792. More like a pissed off boomer

793. It's way to retarded of a attack to be a false flag

794. Norman Spear

872. Norman Spear

873. And abide by need to know rule.

874.

875. Arcturus

876. also - limit electronic information if at all possible and use different mediums while planning some action

877.

878. not to go too paranoid, but never know who is watching, and switching mediums midway through (particularly for a compromised service like discord) will make it more difficult to have all of the relevant information

879. I try to keep in mind that while riot is good for now, it very easily could do the same as discord in the future

880. same for any other platform

881. or could be compromised by globohomo but we just don't know yet

882. void33

883. Remember, never do illegal shit when you are meeting up irl

884.

885. Irl meetups are just for training and getting to know people

886. doomsayeth

887. Yes. Very important.

888.

889. doomsayeth

890. Pretty jacked for January meetup tbh.

891.

892. Brandon Hitt

893. The vetting process for organizations should be long and arduous.

894.

895. There's a reason it takes years to get into the Hells Angels, and even they have been successfully infiltrated

896. doomsayeth

897. Yeah, unfortunately the Hells Angels have a large number of people who want to be prospects, another can be pretty selective.

898.

899. *So they can be

900. Brandon Hitt

901. Patriot Front and similar orgs make it far too easy to infiltrate. PF added a requirement that the prospective member post PF flyers and snap pictures.

902.

903. Shadow

904. void33: Good idea.

905.

906. Brandon Hitt

907. Without a doubt there's someone in this group right now just lurking and building a report.

908.

909. doomsayeth

910. Let's do Roman decimation to decide who is really loyal.

911.

912. landser14

913. Anyone without a valid reason as to why they haven't met up with other members is instantly suspicious

914.

915. I think the 'jumping in' method from black gangs is viable for low bit real life vetting for things such as this network. Let the vetted member beat the piss out of the newcomer, because it is unlikely a fed or other foe will subject themselves to that

916. Brandon Hitt

917. There are ways to severely cut down on infiltration. One I've seen work well over the years are Fight Club style organizations. Blood In, Blood Out types.

918.

919. Your first meetup? You gotta fight

920. charnaz1488

921. I'd legit be down for beat ins they make sense

922.

923. Shadow

924. Jumping someone in sounds more like a gang thing but whatever, I'm down

925.

926. landser14

927. Waterboarding is also acceptable though easier to get through

928.

929. doomsayeth

930. And ideally there should be a hierarchical system of progression through vetting.

931.

932. Brandon Hitt

933. [19:27](#) landser14: The easier the entry requirements, the easier it is to infiltrate.

934.

935.

936. Shadow

937. [19:31](#) Yeah. Nobody should know anything except what their objectives are.

938.

939. If anybody were to be captured, the locations of affiliates would be completely unknown.

940. Brandon Hitt

941. The reason the intel community cannot be fully compromised and exposed is because of the Need-To-Know rule. No one organization knows or even has access to another department's business.

942.

943. Shadow

944. Exactly.

945.

946. landser14

947. Searching for true comrades to hike the Appalachian trail in a few months, if anyone is interested in such a thing

948.

949. Shadow

950. Appalachian trail? I'm down.

951.

952. Arcturus

953. Brandon Hitt: No doubt

954.

955. landser14: Even people with a valid excuse - after long enough they should have met up with someone.

956. landser14

957. Yes I agree

958.

959. Arcturus

960. Hell, I don't even have reliable transportation currently, yet I did. You can get creative. Someone can find an hour or so of their time to meet with a comrade. If you can't, your priorities should be put into question. People make time for shit they care about.

961.

962. If you really can't for months and months, then why are you here?

963. landser14

964. I walked a couple miles to my first IRL meeting with comrades haha there really is no excuse

965.

966. Of course, people will find excuses anyhow

967. Arcturus

968. I'm not calling anyone out by saying that, but generally speaking it seems like the other person will also get creative. People are eager to meet up even if they're scared

969.

970. Though you shouldn't be afraid. People here have accepted some scary truths.
Meeting up with a comrade ranks pretty low on the list of risky activity that may be
necessary someday

971. landser14

972. Norman has led the horse to water, so to speak, but you cant make it drink.

973.

974. Everything is here and set up for us.

975. Arcturus

976. That's one thing I'll say about less "hardcore" groups

977.

978. They meet up.

979. I'd say in many respects the people here probably have more courage than
them. We ought to at least meet that bar.

980. Brandon Hitt

981. The major hindrance isn't lack of courage or wont for meeting up. In most
cases its the severe lack of proximity.

982.

983. landser14

984. Take a weekend to meet up

985.

986. Arcturus

987. No doubt, I understand that

988.

989. landser14

990. take four weekends to get to know eachother

991.

992. move in together

993. Shadow

994. Yeah, as much as I'd like for people to be within an hour's driving distance, it
isn't the reality

995.

996. Arcturus

997. Yeah. Plan it a month ahead or so, choose some day to drive a couple hours to meet a comrade

998.

999. Shadow

1000. As soon as my Pontiac is fixed, I'll go as far as Harrisburg

1001.

1002. Brandon Hitt

1003. landser14: That's another problem for family me. My wife and five kids wouldn't take kindly to having some stranger move in.

1004.

1005. However, it's a good idea for the single guys

1006. *family men*

1007. Arcturus

1008. Yeah, like I said I don't mean to impune anyone specifically. Everyone's got their reasons, but no problem is insurmountable

1009.

1010. Brandon Hitt

1011. Very true

1012.

1013. landser14

1014. My female companion was made aware very quickly that support for my comrades and the 'real family' doctrine would hold the highest priority

1015.

1016. Sparing a room shouldn't really be an issue

1017. Brandon Hitt

1018. Being around each other as much as possible and conducting training builds trust and camaraderie. That's what I miss most after leaving the Marines.

1019.

1020. Knowing without a doubt that someone has your back no matter what

1021. landser14

1022. If we could effectively establish off the grid communities/camps/hideouts/whatever that same feeling could be replicated

1023.

1024. Brandon Hitt

1025. landser14: Agreed

1026.

1027. landser14

1028. But its like this - it took a month for two guys to get together in public.

1029.

1030. Arcturus

1031. And that starts with meeting up. Everyone's got to bridge the gap.

1032.

1033. We can't do this thing - whatever this is to you - without meeting fellow comrades

1034. Regardless of the proposed snowflake solution by each individual, the first step is all the same

1035. doomsayeth

1036. Well, here we are at the beginning.

1037.

1038. Arcturus

1039. I mean shit, a lot of people have the courage to advocate some kind of insurgent overthrow of the entire system or some variation of that. You recognize such is your duty for the greater good. I've no doubt you can improvise to find a coffee shop halfway between you and another comrade hours away.

1040.

1041. Our people trekked across hostile territory in the midwest and west coast on wagon and foot - often dying along the way - for the PROMISE of freedom, land, and duty to spread out as far and wide as possible. You've got it in you to do a thousandth of that. You have better reasons, too.

1042. doomsayeth

1043. Was someone saying they have 5 kids?

1044.

1045. Brandon Hitt

1046. doomsayeth: That'd be me

1047.

1048. Three boys, two girls

1049. I started young. Married at 19. First kid was born 10 months later.

1050. doomsayeth

1051. I wish I had started that early

1052.

1053. Im about to have 4 in December.

1054. Took me a long time to find the right woman.

1055. Brandon Hitt

1056. Very nice. That'll be two above replacement level. Always a good thing.

1057.

1058. doomsayeth

1059. I was in the Marines for 8 years as well.

1060.

1061. Brandon Hitt

1062. My wife explicitly stated she didn't want kids when we were dating. I wasn't having any of that, though.

1063.

1064. doomsayeth

1065. Haha, yeah It's a numbers game. I'm hoping to have at least 5.

1066.

1067. Brandon Hitt

1068. I did 8 years myself.

1069.

1070. doomsayeth

1071. Cool, you a grunt?

1072.

1073. Brandon Hitt

1074. Negative. Intel.

1075.

1076. doomsayeth

1077. I did alot of stuff, but i started as an amphibious assault vehicle crew

1078.

1079. Brandon Hitt

1080. When the recruiter got my ASVAB score he made me take the DLAB.
Apparently there was a shortage of cryptologic linguists and intel analysts at the time.

1081.

1082. Made me think I'd be doing all this James Bond style shit...nope.

1083. doomsayeth

1084. Haha, you must be the big brain type.

1085.

1086. Most of my buddies went infantry, but I had one friend who was an intel analyst.

1087. Psyops guys are an intel MOS right?

1088. Brandon Hitt

1089. Not to toot my own horn, but I'm a genetic anomaly within my immediate family.
A smart kid born into a poor, rural farming family.

1090.

1091. I also stand a foot taller than them on average. If I didn't look so much like my dad, I'd seriously question his paternity.

1092. Arcturus

1093. Hope to have 5 some day, not sure whether to wait before or after we win.

1094.

1095. doomsayeth

1096. We might need your kids to win.

1097.

1098. Brandon Hitt

1099. Psyops can be intel. I'm not entirely sure with regard to psyop mos designations in the Marines.

1100.

1101. doomsayeth

1102. I did a lot of work with psyops in 2006, some of those guys are crazy fuckers.

1103.

1104. Brandon Hitt

1105. Imagine if Grandma Alois had given up having kids after having her 3rd.

1113. One too many beers tonight apparently

1115. doomsayeth: I know you know rucking is either a love/hate thing. Seems like most Marines would rather run than do a hump.

1120. doomsayeth: I know you know rucking is either a love/hate thing. Seems like most Marines would rather run than do a hump.

1121. I hated rucking it.

1122.

1123. I'm taller, so when we would be in formation I would have to chop my steps to stay in line.

1124. Brandon Hitt

1125. doomsayeth: That was definitely a downside.

1126.

1127. doomsayeth

1146. Pymander

1148.

1149. doomsayeth

1150. Between 36 and 38.

1155. be glad they didnt have you in

1156. this is funny reading about ANOTHER time they got infiltrated and humiliated

1157. doomsayeth

1158. At the time, they were probably the most visible WN group.

1159.

1160. Pymander

1171. it was Thomas and his boomer groomers fleeing from Vanguard America after Cville and starting a new group with like 1/3 or 1/2 of VA

1172. that way they didnt get on that lawsuit, vanguard america did, and they were the reasons why, but they started a new group and got away with it

1173. doomsayeth

1174. There don't seem to be any effective, or even credible, WN groups.

1175.

1177. Arcturus

1183. In your opinion, Is the "education phase" the period following being basic level red pilld?

1375.

1376. 320 million total US population. 60% of them are White (at minimum). 6% of 60% of the total population is 1.9 million minimum supporters

1377. badman23

1378. Probably has some truth to it. But as attacks have grown on us, more become aware. Look at Europe, people are becoming more aware

1379.

1380. And I would think the number is probably more than 6%

1381. They love to alter information like that

1382. Norman Spear

1383. It could potentially be as high as 9 million by data I've seen.

1498. *whatever that might entail.

1627. That would be gay as fuck

1628. And bring us down to a lower level

1629. juppi

1630. still im on the same page as norman here

1631.

1632. landser14

1633. I honestly think a weekly voice chat would be better than a podcast.

1634.

1635. void33

1636. ^^^^

1637.

1638. I agree

1639. Norman Spear

1640. void33: yeah unless I'm missing something, I feel the same way about it

1641.

1642. landser14: the book club is mostly an excuse to voice chat

1643. juppi

1644. I have to get into the book club anyday now

1645.

1646. Norman Spear

1647. Whatever book is just a spring board for discussion

1648.

1649. Thurs 10pm EST

1650. juppi

1651. Im asleep at that time

1652.

1653. Brandon Hitt

1654. The only purpose a podcast would be able to serve for us might be instructional recordings, but those are ubiquitous on YouTube already.

1655.

1656. juppi

1657. Well my work is ending soon and I will be returning to school so I think I can get in

1658.

1659. Norman Spear

1660. juppi: yeah i understand it's pretty early time where we are

1661.

1662. Brandon Hitt: i prefer sticking to being a guest on podcasts. I think that's just the right amount of exposure.

1663. Brandon Hitt

1664. Agreed

1665.

1666. Shadow

1667. Hey guys I'm back

1668.

1669. juppi

1670. Yeah the podcast you were a guest on recently is a good example

1671.

1672. hey Shadow

1673. Norman Spear

1674. <https://twitter.com/BNONews/status/1056284707103608832?s=19>

1675.

1676. [17:01](#) They're trying to pressure Gab to ban us.

1677.

1678. Norman Spear

1679. [17:05](#) Yeah Torba might see this as his way out and just be rid of it

1680.

1681. Brandon Hitt

1682. Norman Spear: I'm leaning toward that sentiment as well

1683.

1684. Norman Spear

1685. Pay pal didn't waste anytime. That was surprisingly quick.

1686.

1687. Brandon Hitt

1688. Norman Spear: They've been looking for a legit scapegoat for a while.

1689.

1690. Norman Spear

1691. If thats a sign of what's in store for Gab it's not looking good

1692.

1693. Yes I imagine so

1694. islammuslims

1695. Cloudflare was the one who banned the Daily Stormer right? They host Gab.
Also hi all, sorry for the unannounced hiatus. Life has had me down and busy- my dogs are old and dying and so is my grandpa

1696.

1697. Norman Spear

1698. islammuslims: hi. Good to see you in here again. Sorry to hear about your pets.

1699.

1700. Brandon Hitt

1701. and grandfather

1702.

1703. Norman Spear

1704. Sorry didn't read that part.

1705.

1706. It's after midnight here so my reading comprehension isn't at its fullest

1707. islammuslims

1708. Thanks guys. No worries Norman

1709.

1710. juppi

1711. Strenght to you in your struggles islammuslims

1712.

1713. Shadow

1714. Sorry to hear about that.  islammuslims

1715.

1716. islammuslims

1717. Thank you both

1718.

1719. Arcturus

1720. Hope we don't get too many more like Bowers. It's counterproductive IMO

1721.

1722. void33

1723. Bowers was a hero

1724.

1725. If we had 1000 Bowers the war would be won tomorrow

1726. Arcturus

1727. nah, it wouldn't

1728.

1729. I'm not going to get in an extensive argument about this though

1730. said what I thought on the matter

1731. void33

1732. You gonna cry because a couple of yids died?

1733.

1734. Arcturus

1735. You're misinterpreting what I'm saying, possibly willingly, but like I said I'm not going to argue over this much due to the increased attention this group is likely receiving by unwanted eyes

1736.

1737. this is not the time to say a lot IMO

1738. void33

1739. Nothing we do here is illegal

1740.

1741. Who gives a fuck about attention

1742. Arcturus

1743. Anyone here ought to considering all messages here will likely be shared by antifa

1744.

1745. void33

1746. So?

1747.

1748. Arcturus

1749. You either get why or you don't. I'm not going to try to convince you why I think we ought to be reserved.

1750.

1751. charnaz1488

1752. Bowers was a freak who made it more difficult to have our views

1753.

1754. He had lolli somewhere which alone should be worthy of a death sentence then just put our cause back a few years they will crack down on "anti semitism"

1755. The rabbi being absent is suspicious as hell though imo maybe he just got lucky but he must have been really lucky

1756. void33

1757. Is gab down for you guys?

1758.

1759. Arcturus

1760. dunno, I think I was autobanned for inactivity a few days ago

1761.

1762. never much used it

1763. would not be surprised if that's the case though

1764. Lethum

1765. ** Unable to decrypt: The sender's device has not sent us the keys for this message. **

1770. Re-request encryption keys from your other devices.

1771. ?

1772. Arcturus

1773. they're going to give gab the dailystormer treatment

1774.

1775. charnaz1488

1776. Yeah gab will be going soon for harboring "anti semitic" views

1777.

1778. void33

1779. Gab is down

1780.

1781. I think

1782. charnaz1488
1783. Its down for me too

1784.
1785. void33
1786. RIP Gab

1787.
1788. I think the gov shut it down
1789. Arcturus

1797. charnaz1488
1798. It will soon if it hasn't yet

1799.
1800. Arcturus
1801. probably the hosts

1802.
1803. same as they did for dailystormer
1804. charnaz1488
1805. Yeah that's more likely

1806.
1807. landser14
1808. My secret gab account I used to lurk got shoahd

1809.
1810. void33
1811.  landser14: The entire website is down

1812.

1813. charnaz1488

1814. The is being shoahd or my account got banned I really wouldnt be suprised about either

1815.

1816. The site*

1817. void33

1818. Its the site

1819.

1820. charnaz1488

1821. All the jews playing the victim will really make ZOG upset I expect hate speech laws soon tbh

1832.

1833. Arcturus

1834. No doubt

1835.

1836. landser14

1837. uh

1838.

1839. these article links are from basically last year
1840. not that suspicious tbh
1841. Arcturus
1842. nor do I think it's a false flag for a second lmao
1843. 
1844. I don't find it unbelievable some guy could do something along those lines
1845. void33
1846. This is clearly not a false flag
1847. 
1848. landser14
1849. he was active on social media for a long time
1850. 
1851. the only people who think this is a false flag is Daily Stormer
1852. Arcturus
1853. some things are questionable, sure, but this is not
1854. 
1855. you can argue whether it's good or bad, but it is real
1856. Brandon Hitt
1857. Indeed it is real. But also expected.
1858. 
1859. Jews have been in a rather comfortable position for quite a while now. It's always a win-win. If they're not currently being attacked, they are free to push their agenda. If they're being attacked, normies push their agenda for them.
1860. landser14
1861. the solution? Simple! [redacted] the [redacted] AND the [redacted]
1862. 
1863. Brandon Hitt
1864. The reason I support acceleration is primarily due to the fact that the Jewish agenda relies solely upon order, order that they control. Once that is removed from the equation, the great downgoing can finally occur.
1865. 
1866. landser14: It's been really difficult holding back saying what I've wanted to say today.

1867. Arcturus

1868.  Brandon Hitt: Could put word to paper. Physical paper.

1869. 

1870. That often helps me get something out of my mind

1871. Brandon Hitt

1872. I've got a few journals. I was just commenting on the fact that I - and I'm sure others here and elsewhere - have felt the need or want to speak their minds about today's events in social media but fear the repercussions of doing so.

1873. 

1874. Arcturus

1875. Of course

1876. 

1877. Brandon Hitt

1878. You are correct, though. Putting words down on paper acts as a pressure valve at times.

1879. 

1880. Arcturus

1881. You could probably write them down and speak about it later on tbh

1882. 

1883. it's just that the heat will likely be more on us in the immediate future

1884. month or so down the road I doubt it will so much matter

1885. I don't think at this point much needs to be said. I'm sure we're all largely thinking the same things, with only a few disagreements

1886. Brandon Hitt

1887. I'm not so sure of that. The Jews the world over feel targeted today. Given that they hold tremendous sway over the system, I doubt we'll hear the end of this in quite a while.

1888. 

1889. Arcturus

1890. Sure. I meant specifically this group

1891. 

1892. If someone is monitoring it, which is probable, they'll probably lose interest in time

1893. Or rather, if something were to get out normal people wouldn't give so much of a shit because they have the attention span of a fly

1894. it's all time sensitive, as something is further in the rearview people are less outraged (though they may still be as disgusted) and they take their foot off the gas a bit

1895. Brandon Hitt

1896. My hope is the neither side fails to take advantage of today's events. Those who oppose us will hopefully tighten their grip. If all things have an equal and opposite reaction, we should see an increase in numbers and support.
