But ultimately we can't, as mentioned earlier, demographics are our future - and even then, regardless of what side is in power, they will always fund our genocide. They will always fund our enemies. Think about how many countries are reliant on the USA, Israel being the biggest. In order to make our enemies crumble we must also throw our own country into chaos. 669. Norman Spear

670. elksworth: undoubtedly things need to get
much worse unfortunately

671. 

672. I would say the situation in USA probably
needs to get at least as bad as South Africa

673. Not necessarily throughout the entire country
but in multiple relatively vast areas

674. **Norman Spear**

675. **However those conditions may never be met despite the inevitability of Whites becoming a small minority. Look at places in South America like Brazil where minority White communities live rather peacefully as far as i know besides exposure to typical non-racially motivated crime. There may just be something special to the history and politics of South Africa that make the environment particularly and explicitly anti-White.**

682. **Norman Spear**

683. **Aa things stand now however there's plenty of anti white sentiment in USA to think that might not be the case and that it will only increase at least in the near term**

684.

685. **But your right to be concerned**

686. **Civic nationalism is a hell of a drug**

687. **Don't underestimate it**

688. **I can just as easily see "conservative" blacks and even GOP jews becoming POTUS in the future for example**

689. **Norman Spear**

690. It certainly seems like we're at a crossroad of sorts now and things could go either way. Too difficult to predict completely but the path we're on will probably become clearer over the next 8-10 years.

691.

692. Just the rest of Trumps first term alone will tell us alot I think

693. Also it's probably more helpful to look at things region by region to get a more accurate nuanced picture. Tensions won't be the same everywhere all at once qualitatively or quantitatively because USA is such a big place.

694. Not necessarily easy to do without alot if additional research but a point to keep in mind at least.

695. Theoretically do we need to leave it mostly up to chance like this? No. Realistically do we need to? Yes unfortunately because of human nature.

696. Arcturus

697. I don't think we'll get nonwhite GOP presidents tbh

698.

699. also - even if we don't reach south africa tier, that's okay

700. I think we'll get poor and crime ridden enough for there to be an opportunity

701. Norman Spear

702. Possibly. And as I said things can and will vary regionally but still have repercussions nationally.

703.

704. **Right now at least there's no reason to think the antiWhite sentiment in USA will diminish anytime soon.**

738.

739. Norman Spear

740. I have no good explanation other than they're really laid back folks in the mountains up there.

741.

742. To be fair we did modify the deal immediately after the closing to add an additional parcel but still there's no reason for it to take this long

743. I mean immediate after the first closing date in which only i was present to sign

744. At this point I'll probably just go there in person again in January to make sure it gets done

745. doomsayeth

746. I believe it, people warned where I bought my property that there was a "different culture" up there and things moved at a slower pace. That was no bullshit. It took me 6 months to get a guy to put in the well.

749. Yeah i noticed that during my real estate search the realtors were also very laid back.

767.

768. Norman Spear

769. There's definitely an urban vs rural element to all this. The cities our ZOG strongholds but at the same time concentrating power and resourced that way makes it vulnerable to those who are less dependent on the System.

770.

771. *are ZOG

772. In that sense the classic model of guerrilla warfare still rings true

773. Reaper
774. The cities also rely on the rural for resources such as food and electricity
775. 
776. They could easily be starved if the rural elements rebelled
777. Maoist doctrines of guerilla warfare are relevant in US
778. doomsayeth

827. I saw

828.

829. Norman Spear

830. It's impossible to be successful in America without towing the Globalist Liberal party line even if secretly you don't like it. That right there is the clearest indicator that Whites no longer control their countries

831.

832. Greed, radical individualism, and nihilism prevent them from rebelling

833. Norman Spear

834. That's why it's very difficult for me to imagine a full blown nationwide civil war. I think any civil conflict is only possible at a localized level in areas where there's a concentration of consciously pro-Whites who frankly feel like they don't have a lot to lose.

835.

836. Of course as working class Whites become increasingly disenfranchised and marginalized more will enter our ranks but concurrently with that they'll be fewer of us as time goes on so it poses a conundrum that can only be overcome or compensated for by increasing acceleration. Seems like we have all those elements at play currently.

837. cadiantrooper

838. I can see scenarios where the rage is national. Being hyper connected could make for a viral national freakout if something truly crushing happened to us. Maybe different rules apply for North American whites, but bear with me. When MLK got shot, how many race riots were there in how many major cities all in the same week?

839.

840. It's not a rhetorical question. I want you guys to look that up for a minute.

841. Norman Spear

842. I think there's something to what you're suggesting as far as hyper connectivity amplifying nationally.

843.

844. However the cities are now populated and controlled by the enemy entirely. L

845. Arcturus

846. To be fair, niggers have always been different from whites in terms of group outrage

847.

848. And actually doing "something" about it

849. even though riots don't achieve shit, still

850. Norman Spear

851. The Whites in the cities now are sellouts

852.

853. Or true believers in Liberal Globalism

854. Either way they won't do shit

855. Maybe run.

856. Hell they ran back in the 60s and that's why places where the riots occurred turned to shit holes

857. In practical terms civil war means risking livelihood and even life. How many would do that in cities or elsewhere?

858. cadiantrooper

859. I have counter points but I don't think it's appropriate to discuss them here. Everyone has their breaking point. We have ours too. For the blacks, it was seeing their hero get gunned down. So, what is ours?

860.

861. Norman Spear

862. Fair enough

863.

864. Arcturus

865. I'd almost say it's best we don't have a breaking point, individually. Every action we take ought to be calculated.

866.

867. Breaking often means rash decisions

868. Norman Spear

869. I can't imagine a breaking point that would mobilize Whites on a nationwide scale to take up arms.

870.

871. cadiantrooper

872. Anyone who has read Siege will likely recognize the angle I'm coming at this.

873.

874. Norman Spear

875. The System breaking is a separate phenomenon that would definitely be a valid counterpoint

876.

877. Because that would mean break down of civil society on a widespread scale. But it would need to happen suddenly and that too is difficult to imagine realistically although it's always theoretically possible of course

878. To deliberately cause something like that would require alot.

879. Norman Spear

880. To clarify, when i say I don't see a nationwide civil war as possible I'm not saying civil war at local or even regional levels is impossible.

881.

882. I actually think the latter is eventually likely

883. Arcturus

884. Civil war is already happening tbh

885.

886. On a more "polite" level for the most part, but politically motivated mass shootings are happening and will continue to ramp up.

887. Norman Spear

888. Yes ideologically speaking that's true but to make it go hot and become full blown territory must be at stake

889.

890. [04:48](#) Right now the frontlines are everywhere and nowhere which I what's holding it back

891.

892. Arcturus

893. [04:48](#) I think they would be "isolated" or at the most group incidents of hit and run attacks. Sectarian attacks is a good way to frame it.

894.

895. But it won't be clearly defined to 99.5% of people in such terms

896. Norman Spear

897. Real wars are fundamentally about territory. So unless some sense of territorial control or safety is viewed as explicitly being threatened people will see it as merely a political statement

898.

899. It won't necessarily trigger retaliation

900. In fact it most likely won't because the System will still be there and no one wants to lose their job or freedom for strangers

901. Is there a solution that doesn't require waiting for a miracle? Yes and no. Theoretically we have the manpower and resources to claim at least some territory for ourselves right now. Realistically there's an insufficient number of us willing & able to relocate.

902. Norman Spear

903. America is just too goddamn big. It's a double edged sword.

904.

905.

Arcturus

906.

Truly is

907.

908. If we ever get enough guys together though, it'd decidedly work in our favor

909. Big if though. Once those of us going to the PNW make it, we gotta start working on local recruits. I think that will be the way forward.

910. Or hell, people period ought to work on local recruits. Probably easier than convincing someone online.

911. Norman Spear

912. Recruiting locally is essentially even if you use the internet to do so

913.

914. I think Roper is onto something in that regard

915. Arcturus

916. Internet is probably a good way to do so. Less risk as people are less likely to know doxable information.

917.

918. Guess it depends on how you go about it though. Face to face, gotta be certain they'd be receptive.

919. Otherwise it's wasted effort and often quite risky

920. Norman Spear

921. Yes I don't think it's generally useful to stand on a street corner handing out recruiting fliers.

922.

923. Posting fliers anonymously maybe in strategic locations makes sense.

924. I'm just highlighting the fact that Roper is less concerned with migration.

925. Arcturus

926. I was meaning convincing others to our way of thinking without them realizing it as much. Prodding over time, guiding them and such, not wearing SS uniforms in public.

927.

928. Norman Spear

929. He feels migration is occurring organically at a sufficient enough rate that it doesn't need focus

930.

931. Arcturus

932. May be seen as subversive but it's similar to boiling a frog slowly. If they realize it's too hot immediately they jump out of the pot.

933.

934. Ah. Honestly unfamiliar with roper beyond name recognition

935. Norman Spear

936. It's kind of a variation of the Butler Plan but it includes engaging in active acceleration measures now while recruiting locally. The acceleration measures are political agitation.

937.

938. Arcturus

939. Oh okay

940.

941. Norman Spear

942. It's a good plan i think. He seems to be having some success with it.

943.

944. Hard to say if it'll be *successful* ultimately

945. He too is reliant upon a form of System collapse or balkanization as he envisions it

946. I just don't think they'll be balkanization in the traditional sense with different race groups breaking away to form independent countries

947. Arcturus

948. Agreed

949.

950. It'll be ZOG and us

951. Or in time, maybe beaners will take back the southwest or something, I don't know

952. Norman Spear

953. Yeah exactly

954.

955. I don't see what incentive they'd have to even try

956. They are a privileged class in North America

957. Arcturus

958. Then again they're not entirely logical

959.

960. They just want theirs

961. Norman Spear

962. They're getting everything they want and more

963.

964. Arcturus

965. Still, they want the gringos out

966.

967. Norman Spear

968. So does the rest of ZOG. If they revolt it'll be a Marxist revolt.

969.

970. Not race bases

971. *based

972. Arcturus

973. ZOG doesn't actually want us out, I don't think

974.

975. Norman Spear

976. I don't think your average wetback cares if gringos are out or not

977.

978. As long as they keep getting paid

979. Arcturus

980. They may want us gone in time, but we're too valuable as tax cattle and consumers.

981.

982. Maybe the average one doesn't consciously want us out but a large portion of them are antiwhite. They can be spurred to want the gringo out if there is a call for itimo

983. *it imo

984. Norman Spear

985. Whites who accept their second class citizen status without complaining will be allowed to live

986.

987. Yeah but the System is doing the dirty work for them

988. To revolt would be counterproductive

989. Arcturus

990. Well, I don't think it'll ever be enough for some nonwhites. We'll see in time what happens

991.

992. Norman Spear

993. That may be true personally but all they need to do is sit back and watch the System eliminate us. The System itself will also no longer be White so they'll assume control by default

994.

995. They can have their cake and eat it too

996. Who do you think will be our jailers in the FEMA camps? José of course

997. Arcturus

998. True. Honestly unsure if FEMA camps will ever be a thing in serious numbers

999.

1000. Norman Spear

1001. They'll be enough for us

1002.

1003. Arcturus

1004. Us individually, maybe, if we're stripped of citizenship or they just don't give a shit about the law, but most whites I don't think they'd have the manpower to do so, nor could they take the financial blow

1005.

1006. Norman Spear

1007. As I said normie Whites who keep their heads down and mouths shut needn't worry

1008.

1010. Though I'd imagine they'd give us the Guantanamo treatment then dump our bodies in the ocean

1011.

1012. Norman Spear

1013. When martial law is declared they can do all kinds of things.

1014.

1015. And imagine all the new legislation that'll make things easier for them

1016. We will effectively become disenfranchised 2nd class citizens

1017. Anyone who resists will be labeled a domestic terrorist

1018. FATPO

1019. etc

1020. Arcturus

1021. Yeah, of course

1022.

1023. Who knows exactly, we'll see in time. Whatever it is it won't be pretty

1024. Sadly crystal balls are in short supply

1025. Though - if one was in our possession we'd just be like Cassandra. Hell, I guess we already are.

1026. Norman Spear

1027. A lot of these considerations about the future directly impact how we decide to prepare. And if you figure it takes a significant investment in time and money regardless of the preparations one thinks best, choosing wisely is very important. The implications of choosing the wrong type of preparations can potentially have life & death consequences.

1028.

1029. Norman Spear

1030. Does anyone plan on surviving entirely alone or only with immediate family members rather than as part of a small group? If so, what kind of collapse scenario are you envisioning and how do you plan to survive longterm? Not implying it can't be done. I'm genuinely interested in how a plan like that might work because I could find myself in that situation unwillingly. Given the choice or ability I'd always choose to be part of a group because it seems like it ups the chances of survival exponentially especially in the longterm.

1031.

1032. We are not mere survivalists however so that needs to factor into it as well ideally.

1033. Norman Spear

1034. I was chatting with our member in South Africa and he explained their plan. It's interesting. There are up to 400k Whites ready to move on short notice should a major anti-White pogrom occur which they are fully expecting to occur in the near future. These people are part of an organized network. Upon activation they will assemble at predetermined way points and move to some secret location where they will effectively use as a stronghold. There are caches of supplies along the pre-determined escape routes.

1035.

1036. I could see a plan like this being feasible on a regional level in USA possibly. Nationwide seems almost impossible for a few reasons however not the least of which is the sheer size of America.

1037. silverPopo

1038. 400k?

1039.

1040. That's a fairly enormous number for an organization

1041. Norman Spear

1042. That's how he described it but he may mean that a portion would spontaneously join the caravan

1043.

1044. Maybe the majority of the 400k

1045. silverPopo

1046. Well I know a guy from SA I could invite

1047.

1048. Norman Spear

1049. Ok

1050.

1051. silverPopo

1052. Can you give me an invite to unvetted area?

1053.

1054. Also have you seen Wotjek around lately

1055. Norman Spear

1059. <https://thebase765520628.wordpress.com/contact/>
1060. Woj had some kind of OPSEC issue and left. I think he was still active on Twitter for a while after that but I'm not sure if he still is.
1061. Haven't heard from him anymore.
1062. silverPopo
1063. I got some pics of wotjek saying he respects satanists so that was odd

1064.
1065. Wanted to talk to him about it
1066. He was on discord today but I don't have his ID
1067. Norman Spear
1068. It'd be great to have have him back but I'm not in touch with him.

1069.
1070. silverPopo
1071. Also, i am guessing you were on Ironmarch right?

1072.
1073. Norman Spear
1074. No i never signed up. I read the forums sometimes.

1075.
1076. silverPopo
1077. Ah i see

1078.
1079. Base logo made me think you were an old member
1080. Norman Spear
1081. Nope. I was mutual with a few prominent members on twitter. Seems like our paths constantly are crossing which makes sense considering our shared worldview.

1082.
1083. silverPopo
1084. I gave the guy the invite and he replied so he should be applying soon

1085.
1086. Norman Spear
1087. Ok sounds good. Thanks

silverPopo

There is some other guy i was thinking of inviting from Alaska

1104.

1105.

Norman Spear

1106.

Ok. I'm going to need them both to fill out the form so they can just start with that if they don't have Riot loaded.

I hope that our SA friend comes back. I was hoping on meeting him later this year. I'll be traveling there to visit the Suidlanders

1123. doomsayeth

1124. I'd love to meet the Suidlanders.

1125. Their organization is my life goals.

1126. And in response to your comment earlier Norman Spear , I believe that any serious attempt to repeal the 2nd amendment would trigger an active civil war. Across the whole U.S.

1127. Norman Spear

1128. In theory i think you're likely correct. But it seems that our enemy knows that as well and like everything else it's a slow boil in which they're chipping away at gun rights over time and in a geographically piecemeal manner. Perhaps they'll never be fully repealed but severely restricted.

1129.

1130. Nominally we'll still have the right but in practice it'll be extremely difficult and restricted to only the most slavish System shills.

1131. Anyone displaying a hint of wrong think will not be permitted to own a firearm although owning will still be technically legal.

1132. I could see this easily getting tied in with hate speech laws for example.

1133. Norman Spear

1134. That's exactly the kind of thing that the GOP and "conservatives" are there to do—Ease in restrictions and gently usher in liberal Globalist totalitarianism. They are literally paid professionals hired to do this exact thing.

1135.

1136. d00mr

1137. [09:53](#) If only we had known each other prior to this, [@doomsayeth:matrix.org](#). I put on two events for the Suidlanders in our region when they were touring around the US
