2. Balkan Cross

3. Yeah, I have. Wish I hadn't gone cheap. That or I should have made my own.

4.

5. Norman Spear

6. Can you suggest how to make your own? Others have asked in the past but I've never done it.

7.

8. Balkan Cross

9. I'm no craftsman but its basically copying whats already out there with improvised material. You can cast dumbbells via concrete, with simple welds and some steel you can build racks etc

10.

11. Youtube has some places to start brainstorming.

12. <https://www.youtube.com/watch?v=ux8MOFLIOXM> There's an outdoor gym in Kiev that is pretty much made out of scrap. Very Slavic of them

13. Norman Spear

14. Ok thanks

18.

19. interesting thread, though IMO would not be a 1:1 comparison

20. there's enough niggers and beaners in the military, they might go through with it

21. though frankly that'd be in our favor

22. Norman Spear

23. Nuking yourself to own the Whites

24.

25. void33

26. World Governments would never use nukes

27.

28. Arcturus

29. nah, they wouldn't

30.

31. void33

32. The globalism we have today facilitates this

33.

34. Arcturus

35. I meant specifically military using serious hardware and giving us the hadji treatment

36.

37. void33

38. The US military would be killing their own civilians

39.

40. The soldiers would leave in mass numbers

41. Arcturus

42. which would be good

43.

44. in a democrat admin I could seriously see them doing that

45. void33

46. It would be a mass mutiny the likes of which has never been seen in the world

47.

48. So many vets I know are anti gov and lolbertarians

49. Norman Spear

50. They'll use surveillance assets to target specific individuals and the rebels would learn very quickly to be as clandestine as possible

51.

52. void33

53. Only the sociopath feds/special agents would kill rebels

54.

55. Norman Spear

56. There are plenty of them

57.

58. void33

59. A full on civil war would destroy the fed in the early stages

60.

61. Sure, but the war would already be lost for the GOV if they started using bombs and tanks

62. Norman Spear

63. Realistically I just don't see a rebellion ever happening by regular patriotic Americans

64.

65. void33

66. For sure

67.

68. But they will tag along if it does

69. Arcturus

70. Perhaps, yeah

71.

72. Norman Spear

73. If it's a racist rebellion they'll work with the feds

74.

75. Arcturus

76. I think IF they do, it would be settling personal scores with impunity

77.

78. or doing shit against the gov as a once off that'd be blamed on us

79. void33

80. I think they will stay neutral, until it starts going south for the feds

81.

82. Norman Spear

83. They'll only act if the fed actively deputizes them

84.

85. *mobilizes as unofficial death Squads

86. void33

87. It's good to remember that the Russian revolution was started by the army

88.

89. And then the bolshevik radicals turned it into a communist revolt

90.  Norman Spear: I doubt militias members will execute american citizens for the federal government.

91. So many of them are anti gov

92. Norman Spear

93. They hate racists more than the government

94.

95. void33

96. You might be right

97.

98. I actually saw a sad video about that fact

115. void33

117.

118. Arcturus

119. I honestly think a lot of normie whites voice the opinion of hating racism but deep down don't give a shit enough to shoot someone over it

120.

121. void33

122. Allot of them also have spic wives

123.

124. Arcturus

125. it's just going along to get along

126.

127. Norman Spear

128. Yes they'd team up with Antifa

129.

130. void33

131. Went I went to Texas a shit ton of white men have Mexican whores

132.

133. Norman Spear

134. We are the epitome of evil to them

135.

136. Arcturus

137. act as informers? sure

138.

139. kill people? not sure on that one

140. void33

141. Yeah, Nazis are LITERALLY worse than anything else

142.

143. wolfrik

144. I agree with Norman mainly

145.

146. void33

147. Arcturus might also be right

148.

149. I guess we will see

150. Also*

151. Arcturus

152. I'm sure we'll see both

153.

154. I'm just not sure the ratio

155. Norman Spear

168.

169. Arcturus

170. unless they're us everyone is a civnat

171.

175. Norman Spear

176. Anyone who isn't us hates us

177.

178. Arcturus

179. in word

180.

181. I don't think conservatives deep down do the same as liberals

182. some do, yes, but I think most don't give a shit past social signalling

183. wolfrik

184. I disagree

185.

186. Arcturus

187. they may see us as "bad" but not the visceral kind of hate commies and progressives do

188.

189. wolfrik

190. Conservatives would be worse imo

191.

192. Arcturus

193. I think there is a distinction to be had

194.

195. Norman Spear

196. It's a subtle distinction at best

197.

198. Without any practical difference

199. Arcturus

200. big practical difference

201.

202. practically speaking they may be unwilling to draw a gun on us

203. big enough to me

204. void33

205. Allot of anarchist/marxist left wingers switch to becomes natsocs

206.

207. Conservatives never go past civ nat or lolbertarian

208. Arcturus

209. mainly because imo they recognize there is a fundamental problem even if they're wrong about it

210.

211. void33

212. Pretty much

213.

214. Arcturus

215. would not say never, a lot of young trump guys have gone further

216.

217. so far as middle aged conservatives though, yeah

218. void33

For sure

235. Only a few "100%" legit people out there

236. Maybe like Mason and Tom Metzger

360. white people growing up as minorities and recognizing they're minorities raises racial consciousness

And, at least at first, it will be a more informal balkanization, and eventually become unofficial in some cases where we might see Orania-style communities sprout up. These "semi-autonomous" communities will be White primarily although i can see some radical Muslim groups do something similar as well as more radical Marxists.

617. juppi

618. And getting that is going to take atleast 5 years of living there right?

619.

620. doomsayeth

621. But you can buy guns at garage sales with just a bill of sale. Between private parties.

622.

623. Actually, I'm not super savvy on the gun laws everywhere, so take everything I say with a grain of salt. I'm basing most of it off personal experience.

624. I've bought and sold guns in very informal settings.

625. Nerf guns.

626. juppi

627. Ah I see.

628.

629. You can get guns here too but magazines are limited

630. Unless you get a special permit

631. doomsayeth

632. Do you have to belong to a hunting club or something? Or is that Germany?

633.

634. juppi

635. Well to get hunting rifles you need hunting license

636.

637. easy enough thats covered already

638. but sport weapons are a hard one

639. doomsayeth

640. What is considered a hunting rifle there? A bolt action single shot?

641.

642. juppi

643. Bolt action, semi-auto, pump action shotgun, semi auto shotgun

644.

645. Magazine is what makes the decision

646. doomsayeth

647. Is finland more relaxed on gun ownership than other places in Europe, or is it the same as far as you know?

648.

649. juppi

650. I think so

651.

652. Pymander

653. gun laws are great here, some states private sales a bill of sale isnt even needed

654.

655. though parts of the country they are fukt

656. juppi

657. I even found an omd STG44 that you can legally own

658.

659. But its 3000€ so no dice

660. doomsayeth

661. Nice

662.

663. Pymander

664. yeah maintenance would be awful on one of those or the companies doing reproductions, but still would be cool to have

665.

666. just a lot of money with a lot less options than other choices

667. juppi

668. So you can get guns pretty easily but permits are hard to get. You need a permit for each gun you own too

669.

670. Pymander

671. damn

672.

673. registration isnt even required here, but i know some states its awful

674. just need paperwork and to wait forever for suppressors and explosives, but still can get em legally

675. but i dont think i'd want to be on the ATFs list for having a class III or explosive license (can't remember if that's part of class III, rusty on the laws on that stuff)

676. juppi

677. What do you think about lever action guns? I heard that bullet speeds are a bit low due to the bullet desing.

678.

679. doomsayeth

680. I have a lever action .22, it's pretty fucking fun to shoot varmints with. I cant tell you about it's muzzle velocity or round fps though.

681.

682. juppi

683. I have to look into getting permit as my homework today. Found a pretty good looking ar-15 that would really lighten up my day.

684.

685. Pymander

686. lever action guns are cool

687.

688. Norman Spear

689. What's the most durable 5.56 tactical longgun comparable to ak47 as far as low maintenance is concerned?

690.

691. Pymander

692. i dunno, instinct says a non-carbine AR. some people are huge fans of the short or long piston systems, but i've never had an issue with DI gas guns, not super experienced with the piston ones, and most people are gonna have the DI gas system, and easier to find parts for them is what i'd say

693.

694. never have had an issue if i didnt get too much gunk in one, and kept it lubricated

695. doomsayeth

696. I would have to agree.

697.

698. Pymander

699. piston guns will fail with 'torture test' stuff, with tons of dirt/dust/mud

700.

701. some people think they are immortal though

702. but if I was gonna run a suppressor, a piston upper would probably be easier then to deal with adjusting the gas block

703. idk

704. the glory is the modular nature, can swap uppers and change your caliber and gas system if ya want

705. I should get a few BCGs and the little spare parts for them as backup

706. Norman Spear

707. Do you think the mini 14 has any advantage?

708.

709. Pymander

710. nice to have a bag of extra parts if something goes to shit. doubt shooting the barrel out will happen, id almost rather keep an extra upper to throw on than deal with taking it apart for a new barrel haha

711.

712.

The mini 14 is a nice rifle

713.

i dont think it has any advantages over modern ARs you can build

714.

their mags are different too, how they rock and click in like AK mags

1161.

1162. The cities are filled with ultra rich, ultra poor, and ultra SJWs

1163. Average White workers are forced to commute for hours in some cases

1164. Rural areas have been experiencing atrophy for decades

1165. The urban/suburban/rural spectrum is a manifestation of the flow of power and current values from the degenerate urban centers outward

1166. The geographic distances are overcome by mass media & internet to make sure the degeneracy is spread around regardless of distances

1167. I think this phenomenon validates classic guerilla warfare strategy as far as controlling or having freedom of movement in rural areas
